FEEDING DIRECTIONS

Ohio Performance Plus is a quality feed balanced with vitamins and minerals. Ohio Performance Plus is specifically designed for maintenance of adult horses. Feed from 0.25% to 1.0% of body weight (a 1,000 lb adult horse may receive between 2.5 to 10 lb of feed). Also feed a good quality mixed hay at a rate of at least 1.5% of body weight. Variable feeding rates are dependent upon activity levels and each horse's unique digestibility efficiency. Provide clean, palatable water at all times.

WARNING: This feed contains copper. Do not feed to sheep of other copper sensitive species. Follow label directions. Feeding added selenium at levels in excess of 0.3 ppm in the total diet is prohibited.
