Staying **up to date** on your vaccines is one of the best things you can do to protect your health.

If you are pregnant or have a medical condition that puts you at higher risk for infections, talk to your health care provider about which vaccines are right for you.

KEY

-  ALL adults in age group should get the vaccine.
-  SOME adults in age group should get the vaccine.
-  Adults should talk to their health care provider to decide if this vaccine is right for them.
