Independent Auditor's Report

To the Board of Directors
Big Bend Regional Hospital District, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and general fund information of Big Bend Regional Hospital District, as of and for the year ended September 30, 2014, and the related notes to the financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Big Bend Regional Hospital District, as of September 30, 2014, and the changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Change in Accounting Principle

In 2014, the District adopted new accounting guidance, GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 6 and 20 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 27, 2015 on our consideration of the Big Bend Regional Hospital District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Big Bend Regional Hospital District's internal control over financial reporting and compliance.

El Paso, Texas
March 27, 2015

MANAGEMENT'S DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

September 30, 2014

The purpose of Big Bend Regional Hospital District (District) is to provide funds to pay for health care for indigent residents of Brewster and Presidio County, Texas. Management's discussion and analysis provides a narrative overview of the financial activities and changes in the financial position of the District for the fiscal year ended September 30, 2014. Readers should use the notes included in the financial statements of the Hospital District along with this information. In accordance With the guidelines of the Governmental Accounting Standards Board Statement No. 34 *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, this analysis includes, when available, comparative analysis of relevant data from the previous year.

Overview of the Financial Statements

This area of the discussion and analysis is merely intended to serve as an introduction for the District's financial statements.

The District is a special purpose government which engages in a single governmental program; therefore, the District only has one governmental fund (the general fund). The District has elected to combine the presentation of the government-wide financial statements and the fund financial statements. The column entitled "Reconciliation Between General Fund and Governmental Activities" reconciles individual line items of fund financial data to government-wide data.

The first statement is the Combined Statement of Net Position and General Fund Balance Sheet. The column entitled "Statement of Net Position" reports the District's year-end position on September 30, 2014, based on the accrual method of accounting which records all of the District's assets and liabilities, with the difference between the two reported as net position. Changes in net position reflect the overall health of the District and over time may serve as a useful indicator of whether the District is improving or deteriorating financially. The Statement of Net Position column presents a longer-term view of the District's finances.

The column entitled "General Fund Balance Sheet" provides a detailed short-term view of the District's single operation based on the modified accrual method of accounting. The fund balance represents the expendable resources available at the end of the fiscal year.

The following statement is the Combined Statement of Activities and General Fund Statement of Revenues, Expenditures, and Changes in Fund Balance and reflects the District's activities for the year ended September 30, 2014. The column entitled "Governmental Activities" presents information on how the District's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event occurs, regardless of the timing of cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g. uncollected taxes).

The column entitled "General Fund" provides a detailed short-term view of the District's single operation by presenting the inflows (revenue) and outflows (expenditures) of expendable resources.

These reports are followed by the Notes to Financial Statements, explaining in further detail areas such as accounting policies, capital assets, property taxes, commitments and contingencies.

The Statement of Revenue, Expenditures and Changes in Fund Balance – Budget and Actual reflects the adopted and amended budget and compares the amended budget to actual expenditures. The report shows how effective the District has been in the past twelve months adhering to budgeted expenditures.

Government- Wide Financial Analysis

As of September 30, 2014, the total assets of Big Bend Regional Hospital District were \$3,967,293. Cash makes up 94% or \$3,732,470 of total assets. Capital assets, net of accumulated depreciation, make up 3% of total assets. Property taxes receivable net of allowance make up 2% of total assets.

Total net position (total assets less total liabilities) as of September 30, 2014 was \$3,953,986. Of this amount, 92% is unrestricted and 3% is invested in capital assets.

As of September 30, 2014, tax receipts make up 98% of revenue, or \$1,181,685 of \$1,207,127. The major expenses of the District include Indigent Care (23%), Medical Enhancement (35%), and Salaries and Related Costs (15%).

Financial Analysis of the Government's Funds

At the end of fiscal year 2014, the ending general fund balance was \$3,773,833. This is an increase of \$319,457, or 9% of the prior year fund balance. This increase in general fund balance from the prior year is the result of some budgeted projects not being funded in the current year. The prior year saw an increase in fund balance of approximately \$477,419; and the year before that increased approximately \$130,965.

The District's major source of revenue comes from property taxes. The payments received from property taxes make up 98% of revenue in FY 2014. The remaining revenue results from interest earned on a savings deposit type accounts and from the State's tobacco settlement.

Total expenditures in fiscal year 2014 increased by approximately 35% or \$226,976. This was largely due to an increase in indigent care and medical enhancement programs.

General Fund Budgetary Highlights

In addition to the basic financial statements and accompanying notes, the report also presents the budgetary comparison schedule that reflects the adopted and amended budget and compares the amended budget to actual expenses. The report shows how effective the District has been in the past fiscal period adhering to the budgeted expenses. The original budget had amendments primarily to reallocate and increase project funding. The following are the most significant variances:

- Indigent Care – resulted in a favorable variance of \$254,733. This is after the original budget was reduced by \$232,000.
- Medical Enhancements – resulted in a favorable variance of \$132,513. This is after the original budget was increased by \$316,760.

In the end, all revenues and expenditures resulted in an overall favorable variance of \$448,544.

Next Year's Budgets and Rates

For fiscal year 2014-2015, the District adopted an operating budget of \$1,238,044. To support the budget for fiscal year 2014-2015, the board adopted a total tax rate of \$0.1215 per \$100.00 of assessed property valuation.

Contacting the District's Financial Manager

This financial report is designed to provide the residents of Brewster and Presidio Counties with a general overview of the District's finances and to demonstrate the District's accountability for the property tax payments received. If you have questions about this report or need additional financial information, please visit www.bbrhd.com or contact the Big Bend Regional Hospital District, P.O. Box 1439, Alpine, TX 79831 and attention to the Director of Finance.

BIG BEND REGIONAL HOSPITAL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

SEPTEMBER 30, 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

The Big Bend Regional Hospital District (District) is a hospital district created by an Act of the State of Texas. The District is a governmental organization and, as dictated by State law, is responsible for the health care of indigent residents of Brewster and Presidio Counties, which is funded by an ad valorem tax on real and personal property within its jurisdiction.

Reporting Entity

The District is governed by a board comprised of 5 individuals who are elected by the voters of the counties for staggered 4 year terms. The District is not considered to be a component unit of another entity, and these financial statements do not include any other entities as component units of the District.

Government-Wide, Fund Financial Statements, and Financial Statement Presentation

The District is a special purpose government which engages in a single-governmental program; therefore, the District only has one of the three fund categories (governmental, proprietary, and fiduciary) which is a governmental fund titled the General Fund.

The District follows Government Accounting Standards Board Statement Number 34, and related pronouncements, which requires the District's election to combine the presentation of the government-wide financial statements and the fund financial statements.

The Statement of Net Position and the Statement of Activities are government-wide financial statements. The column entitled "Governmental Activities" on the combined Statement of Net Position and General Fund Balance Sheet serves as the Statement of Net Position. The same entitlement on the Combined Statement of Activities and General Fund Statement of Revenue, Expenditures and Changes in Fund Balance serves as the Statement of Activities.

The General Fund Balance Sheet (column entitled "General Fund") and Statement of Revenue, Expenditures, and Changes in Fund Balance (column entitled "General Fund") financial statements provide reports on the financial condition and results of operations for the governmental fund category.

The column entitled "Reconciliation Between General Fund and Governmental Activities" reconciles individual line items of fund financial data to government-wide data.

(Continued)

BIG BEND REGIONAL HOSPITAL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

SEPTEMBER 30, 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus and Basis of Accounting

The government-wide financial statements (Governmental Activities) use the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows.

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement category represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until that time.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement category represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Governmental fund financial statements (General Fund) use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due, which is not applicable to the District.

Fund Accounting

A fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. Resources are accounted for in individual funds based upon the purposes for which they are to be spent and the restrictions, if any, on the spending activities.

Governmental Funds are those through which most governmental functions of the District are financed. The acquisition, use and balances of the District's expendable financial resources and the related liabilities are accounted for through governmental fund types. The measurement focus is upon determination of changes in financial position, rather than upon net income determination. The only governmental fund type used by the District is the General Fund. The general operating fund of the District, accounts for all financial resources of the District that are not required to be accounted for in the special revenue funds.

BIG BEND REGIONAL HOSPITAL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

SEPTEMBER 30, 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balance Reporting and Governmental Fund Type Definitions

Fund Equity - In accordance with GASB, the following classifications are used to describe the relative strength of the spending constraints:

- **Nonspendable fund balance** - Represents amounts that are not in spendable form, such as inventory, or required to be maintained intact.
- **Restricted fund balance** - Represents amounts constrained to specific purposes by their providers, such as grantors, bondholders, and higher levels of government, through constitutional provisions, or by enabling legislation.
- **Committed fund balance** - Represents amounts constrained to specific purposes by the District itself, using its highest level of decision-making authority, i.e., Board of Directors. To be reported as committed, amounts cannot be used for any other purpose unless the District's Board approves the changes by Board Resolution.
- **Assigned fund balance** - Represents amount the District intends to use for a specific purpose.
- **Unassigned fund balance** - Represents amounts that are available for any purpose.

Order of Expenditure -When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board has provided otherwise in its budget or its commitment or assignment actions.

Net Position - Net Position on the Statement of Net Position includes the following:

- **Investment in capital assets** - this component of net position consists of capital assets, net accumulated depreciation.
- **Restricted** - this component of net position consists of restricted assets reduced by liabilities related to those assets.
- **Unrestricted net position** - this component of net position is the net amount of assets and liabilities that are not included in the determination of the other categories described above.

(Continued)

BIG BEND REGIONAL HOSPITAL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

SEPTEMBER 30, 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Other Accounting Policies

Deposits and Investments - The funds of the District must be deposited and invested under the terms of a contract, contents of which are set out in the Depository Contract Law. The depository bank places approved pledged securities for safekeeping and trust with the District's agent bank in an amount sufficient to protect District funds during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Funds, (8) Investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. Although the District did not have any investments at year end, the District has implemented and publicized its investment policy and is in substantial compliance with the requirements of the Act and with local policies.

Custodial Credit Risk for Deposits - State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a fair value equaling or exceeding the amount on deposit at the end of each business day. The pledged securities must be in the name of the governmental entity and held by the entity or its agent. Since the District complies with this law, it has no custodial credit risk for deposits.

Capital Assets - Purchased property, plant and equipment are carried at cost and include costs of improvements and betterments, which substantially increase the useful lives of existing plant and equipment. Maintenance, repairs and minor renewals are expensed as incurred. When properties are retired, the related cost and accumulated depreciation are removed from the respective accounts and any profit or loss is credited or charged to income. Donated assets are recorded at fair value on the date of donation.

(Continued)

BIG BEND REGIONAL HOSPITAL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

SEPTEMBER 30, 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The District provides for depreciation of property, plant, and equipment by the straight-line method and at rates designed to amortize the costs over their estimated useful economic lives as follows:

Land Improvements	15 to 20 years
Buildings and Components	5 to 50 years
Fixed Equipment	7 to 25 years
Furniture and Fixtures	3 to 20 years

Tax Revenue - Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to the property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the school fiscal year. A provision for uncollectible taxes is provided based upon historical trends.

Use of Estimates - Preparation of Big Bend Regional Hospital District's financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Budgetary Data - The budget for the District has been adopted essentially on a modified cash basis. As a result, capital outlay items and principal payment on debt are treated as expenses. Also, accounts payable at year end are considered to be obligated during the fiscal year in which they are incurred and are included in expenses in the "budget and actual comparisons" for the fiscal year.

All annual appropriations lapse at year end and encumbrance accounting is not used.

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to September 1, the budget committee submits to the Board a proposed operating budget for the fiscal year commencing on October 1. The operating budget includes proposed expenses and the means of financing them.

(Continued)

BIG BEND REGIONAL HOSPITAL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

SEPTEMBER 30, 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- 2. Public hearings are conducted by the District to obtain comments. Then the budget is submitted to the board for their approval.
- 3. Prior to October 1, the Board legally adopts the fiscal year budget.

Federal Income Taxes - The District is a governmental entity and is qualified as a tax-exempt organization. Consequently, no provision has been provided for income taxes in the accompanying financial statements.

2. DEPOSITS

DEPOSITS WITH FINANCIAL INSTITUTIONS

All deposits were with West Texas National Bank and Marfa National Bank in interest bearing accounts. The accounts were secured at September 30, 2014 by FDIC coverage, an irrevocable standby letter of credit provided by Federal Home Loan Bank of Dallas, and by pledged securities held by First Tennessee Bank in the name of the depository bank and pledged to the District. Although the pledged securities are not in the name of the District, the deposits were deemed collateralized under Texas law.

The security at September 30, 2014 was as follows:

Checking and Money Market Bank Balances:	
WTNB	\$ 2,857,552
MNB	<u>930,569</u>
Total	<u><u>\$ 3,788,121</u></u>
FDIC Coverage:	
WTNB	\$ 250,000
MNB	250,000
WTNB - Irrevocable Standby Letter of Credit maturing December 31, 2014	3,000,000
MNB - Securities Pledged, but not in the District's name	<u>1,100,675</u>
Total Security for Deposits	<u><u>\$ 4,600,675</u></u>

The difference between book and bank balances was \$55,651 and represents items in transit at year-end, usually outstanding checks that clear in the following month.

BIG BEND REGIONAL HOSPITAL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

SEPTEMBER 30, 2014

3. CAPITAL ASSETS

The following is a summary of property, plant and equipment at cost, less accumulated depreciation as of September 30:

	2013	Changes	2014
Land	\$ 81,000	\$ -	\$ 81,000
Furniture and Fixtures	24,547	4,340	20,207
Marfa Rural Health Clinic	100,825	-	100,825
Total property, plant and equipment	208,385	4,340	204,046
Less accumulated depreciation	(94,899)	(8,645)	(103,544)
Net Book Value	<u>\$ 113,486</u>	<u>\$ (4,305)</u>	<u>\$ 100,502</u>

Depreciation expense for the year ended September 30, 2014 was \$8,645.

4. AD VALOREM TAXES

Property taxes are levied on October 1 of each year, in conformity With the Texas Property Tax Code. Taxes are due upon receipt of the tax statement and become delinquent if not paid before February 1 of the following year. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. The tax rate for the year ended September 30, 2014 was \$.125 per \$100 valuation.

Property taxes receivable consisted of the following at September 30, 2014:

Current taxes receivable	\$ 73,639
Delinquent taxes receivable	<u>246,459</u>
	<u>\$ 320,098</u>
Delinquent taxes by fiscal year:	
2013	30,075
2012	22,913
2011	20,780
2010	18,624
2009	16,522
2008 and prior	<u>137,545</u>
	<u>\$ 246,459</u>

NOTES TO THE FINANCIAL STATEMENTS

SEPTEMBER 30, 2014

5. FUND BALANCES

As of September 30, 2014, fund balances were composed of the following:

Restricted:		
Restricted: Marfa Meds	\$	21,322
Scholarships		11,110
Tobacco Settlement Distributions		181,988
UPL Cont. & Indigent Health Care		83
Committed:		
Residency Program		125,000
Unassigned		<u>3,434,330</u>
Total		<u><u>\$ 3,773,833</u></u>

6. COMMITMENTS AND CONTINGENCIES

Long-term Lease and Development Agreement - Effective August 7, 1997, the District entered into an agreement with a private, for-profit corporation Community Health Systems (CHS). The District acquired 15 acres of useable property and loaned to CHS for a 30-year term with an automatic renewal of two successive 10-year periods CHS constructed a new hospital facility on the leased property and the District assigned its operations, working capital, and medical related equipment to CHS on October 1, 1999.

Upon termination of the lease, the leased property, improvements thereon, and working capital as of September 30, 1999 will be turned over to the District. The following table sets forth information provided by CHS related to the hospital facility.

Building, Improvements & Equipment	\$	17,359,154
Accumulated Depreciation		<u>(7,500,606)</u>
Net Book Value		<u><u>\$ 9,858,548</u></u>

The cost basis in just the building and improvements as of September 30, 2014 was reported as \$10,207,719.

NOTES TO THE FINANCIAL STATEMENTS

SEPTEMBER 30, 2014

6. COMMITMENTS AND CONTINGENCIES (Continued)

Indigent Care - The previous indigent care agreement between the District and CHS has been terminated. CHS has voluntarily assumed the financial obligations arising from the provision of certain health care services to indigents who receive such health care services within the boundaries of the District. The District remains financially responsible for the payment for health care services to the District's indigents to the extent such care is provided by providers located outside the District's boundaries. Each patient must meet eligibility requirements before receiving benefits of \$30,000 or 30 days in-patient care, known as the 30/30 rule according to Chapter 61 of the County Indigent Program code. However this 30/30 rule applies to both the In-District and the Out-of-District programs, allowing each patient to potentially receive \$60,000/60 days benefit.

In addition, the District has voluntarily transferred public funds to the State to constitute the State share of the 1115 Waiver Uncompensated Care payments and the District intends to do so in the future. The transfer of local funds is made through an Inter-Governmental Transfer (IGT). The 1115 Waiver Uncompensated Care contributions for the year ended September 30, 2014 totaled \$293,356 and were charged to various expenditure accounts.

Office Building Lease - Effective November 19, 2013, the District renewed its lease for office facilities for a term of one year for \$1,175 per month. At the end of the term, the District may renew the lease again or continue to occupy the premise on a month to month basis.

Administrative Services Agreement - On July 1, 2009, Boon-Chapman Benefit Administrators, Inc. (TPA) and the District agreed for TPA to provide certain administrative services to the Indigent Health Care Assistance Program. TPA, at its own cost and expense, maintains and operates the facilities and personnel necessary to provide its services under this Agreement. Services provided include providing information concerning Plan eligibility and benefits to all participants, beneficiaries, and health care providers in order to administer claims in accordance with the terms of the Plan. Fees payable by the District to TPA for the services rendered include a \$22 per month per eligible client fee, and subrogation services at 25% of any recovery. These fees are due within 45 days of invoicing by TPA.

Further, TPA provides managed care services consisting of a system of prospective and retrospective review of the medical necessity, cost and/or appropriateness of health and behavioral care services, medical/surgical utilization review, case management; maintains a network of provider organizations, prepares written reports for claims appeal review services, provides financial agreements and reports. For the year ended September 30, 2014 the District paid \$22,638 for these administrative services.

On July 2012, the District received a notice from the State's Medicaid contractor regarding amounts allegedly owed to the Texas Medicaid program as a result of prior Medicaid payments to Big Bend Regional Medical Center, some going back as far as 1983. The District has asked the State's contractor to produce additional information regarding these claims.

BIG BEND REGIONAL HOSPITAL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

SEPTEMBER 30, 2014

6. COMMITMENTS AND CONTINGENCIES (Continued)

At this time, the District does not have enough information regarding these claims in order to make a payment determination. The District will reimburse the State's Medicaid program once its liability is confirmed. This reimbursement could total up to \$78,750. However, the District believes it has contractual indemnity rights from Big Bend Hospital Corporation for the bulk of such claims. The District has put the Corporation on notice of such claims.

Marfa Meds Project - On December 17, 2013 the District approved the reopening of the Marfa Meds Project. The continuation of the Marfa Meds Project is contingent upon the opening of a pharmacy in Marfa. If a pharmacy is opened in Marfa, the Marfa Meds Project will be closed and the remaining cash balance will be reimbursed to the two granting entities.

7. Related Party Transactions

Management is not aware of any significant related party transactions during the 2013-2014 fiscal year.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors
Big Bend Regional Hospital District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of Big Bend Regional Hospital District as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated March 27, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Big Bend Regional Hospital

District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Big Bend Regional Hospital District's internal control. Accordingly, we do not express an opinion on the effectiveness of Big Bend Regional Hospital District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Big Bend Regional Hospital District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements; noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
