Specifically, this bill requires the DMV to electronically provide to the Secretary of State (SOS) records of each person who submits an application for a driver's license or state identification card, or a change of address, if the proof that the person is required to submit to prove that his or her presence in the United States is authorized under federal law, also establishes that the person is a citizen of the United States, instead of requiring the DMV to electronically provide to the SOS records of each person who submits an application for a driver's license or state identification card, or a change of address, and who attests that he or she meets all voter eligibility requirements, as specified.
