## July's Shooting Drill

The last few years I have provided many resources for Dry Firing practices due to the higher cost of ammo and the lack of availability. Now that that availability has come back, I'll start posting some shooting drills everyone should attempt.

This month we will start concentrating on both timing and accuracy. We will be using the free targets at the club: US Army Official 50 Ft Small Bore Rifle Target. These targets of 12 different bullseyes on them. Place it at 3 yards. Load your magazine with 12 rounds. If yours don't hold 12 rounds or is a revolver, no worries load it to its maximum capability. Your drill is to shoot 1 round per bullseye per sec. The goal is to hit within the black rings with each shoot and make your time. Have fun and if this is too easy at 3 yards, back it on out to 5.

Make this your last drill of your practice session. It helps you mentally prepare, if you were to draw you weapon in defense, you are not too concentrated on just accuracy or just speed.

response to the United States  
Senate's confirmation of Steven

director of the Bureau of  
Alcohol, Tobacco, Firearms and  
Explosives (ATF):

The Senate failed the People  
this week. The purpose of

ministerial duties, not to subvert  
law and cheerlead the  
abrogation of our rights. By  
confirming an anti-rights zealot

worsen, its violations of the trust

## **ASSOCIATED PRESS MAKES SMART GUN CHANGE TO STYLE BOOK, SAYS SAF Second Amendment Foundation Article 7/14/2022**

BELLEVUE, WA – After years of incorporating the terms “assault rifle” and “assault weapons” into news reports involving firearms, especially when used in crimes, journalists are now advised by the Associated Press to avoid the “highly politicized terms,” and the Second Amendment Foundation says it’s a “smart gun change.”

“It’s about time the media realized the terms ‘assault rifle’ and ‘assault weapon’ are inflammatory and meaningless,” said SAF founder and Executive Vice President Alan M. Gottlieb. “Those terms have become part of the gun prohibition lobby’s lexicon, and unfortunately, journalists across the country have been all-too-willing to adopt their vocabulary and repeatedly use it in their reports.

“I’m glad to see the AP Stylebook now recognizes that these firearms only fire one round each time a trigger is pulled,” he continued, “and really function no differently than any other semi-auto rifle, pistol or shotgun, all of which have been in common use in this country for more than a century.”
