

Good morning!

Take a look [here](#) and think about what you would do..... And????

We can ALL get caught off guard by plays now and again.....here is this exact play in our case book.....

9.1.1 SITUATION:

A1, at the free-throw line to attempt a free throw: (a) muffs the pass from the official and it rolls forward; or (b) while performing his/her habitual dribbles prior to the release, accidentally allows the ball to deflect off his/her foot into the lane.

RULING: In (a), the official should sound the whistle to prevent any violations and then start the free throw procedure again. No free-throw violation should be called in this situation. In (b), a free-throw violation shall be called on A1. (9-1-3a, 9-1-3e)

Take 5 minutes each day to read some of the plays in the case book! You never know when you will see it in your own game!

Tuesday Extra: When we have a baseline throw-in where in both a two-person game and three-person the T mirrors the chop, the T should not raise the hand to mirror until the ball has been handed by the L to the thrower-in. This is because the L may interpret the T's hand up as a substitute being brought in or some other reason to delay the throw-in.
