

SKIN SERVICES

Customized Signature Facial \$65: Includes a deep cleanse, exfoliate scrub, followed by a neck and shoulder massage while a nourishing mask soaks the skin with vitamins and antioxidants.

Dermaplane Facial \$95: Dermaplaning removes the outer most layers of dead skin cells leaving the skin immediately smooth, supple, and vibrant. Dermaplaning (blading) is another non-traumatic method of skin rejuvenation.

Dermaplane Facial w/Peel \$130: By reducing the top layer of skin, it also lessens the appearance of fine lines and brown spots.

Micro Needling \$150 – series of 4 \$480: Collagen induction therapy, great for acne scarring, fine lines and wrinkles

Microdermabrasion \$80: Improves oily or dull skin. Enlarged pores. Clogged pores. Fine lines. Mild acne scars. Mild complexion problems (such as uneven pigmentation or poor skin texture)

Jessner Peel \$175: A medium-depth chemical peel that works to improve skin health by helping remove and heal skin damage that is more extensive than regular “wear and tear.” This skin care treatment is stronger than most superficial chemical peels.

Baby Boomer Complexion Peel \$135: This Vitamin A peel minimizes fine lines and wrinkles, lightens age spots, and softens skin texture. Pores become tighter and discolorations begin to fade. Collagen production is stimulated, resulting in a firmer and tighter skin. A series of 3 treatments is equivalent to a year's use of Retin-A (without the chemical toxicity). This peel is great for skin that needs a bit more resurfacing, but not yet ready for a deep peel.

Pumpkin Peel \$65: A pure organic enzyme peel that is a potent antioxidant treatment and skin peel in one. This beautiful botanical skin peel is excellent to treat photo-aging, coarseness, excess skin oils and congestion. Pumpkin wine contains high levels of beta carotene, also making this treatment effective to brighten discolored skin. This quick and powerful peel resurfaces and smoothes skin texture and helps blend and lighten blotchy skin coloration.

Sugaring Hair Removal: Sugaring is a natural water-soluble product applied at body temperature, never a chance to tear or burn the skin that can happen with other forms of hair removal.
