

Interactive Stock Project

Select a company listed in either the New York Stock Exchange (NYSE) or the The National Association of Securities Dealers Automated Quotation (NASDAQ) system and research the following:

- Corporation Name, Ticker Symbol, and Current Price per share.
- Pictures and/or symbols that represent your company.
- Share price charts (Visual display of your company's progress (1, 5, and max) over time).
- At least 3 current news events relating to your company.
- Profile (What is the company all about? What does it sell? Who does it serve?).
- Biography of at least one representative of your company (What are the qualifications, education, and goals of an "officer" of your company?).
- Reason to buy (Why should someone invest in your company?).

Additional information to include:

- A title page (includes your name, your company's name, and the date).
- Table of Contents.

Using PowerPoint, be prepared to share your research with the class in a presentation lasting no more than 10 minutes.
