

Too Much Airplane Noise?

In June, 2013 the FAA implemented new narrow RNAV flight paths using GPS – “Highways in the Sky”. EVERY airplane departing from runway 33L continues through four narrow RNAV paths over specific neighborhoods. On days with NW winds it amounts to hundreds of planes/day, every 2 minutes or less over the same neighborhoods - directly over your home.

- Join Google Group **Boston West Fair Skies (visit our website, scan the Square below)**
- Complain to: **Massport Noise Complaint Line (617)-561-3333** or via **Airnoise** button .
- Come to our **meetings**. Stay informed. There are things you can do to help.

Next BWFS Meeting will be in
BELMONT
THURSDAY, MAY 23rd 2019
7:00 -9:00 P.M.
Belmont Public Library
Assembly Room
336 Concord Ave.
Belmont, MA 02478
