Continuing to quote out remaining equipment needed for the new ladder.

**Training;**

Career staff is constructing and reconfiguring training props that will be available for both Fire Company Captain's to use for their drills. Just let me know and we will have them set up during the day of the Company's drill

## **Coronavirus response;**

Working on Request for Public Assistance Grant with FEMA for possible 75% reimbursement on COVID expenses

## **Other:**

Received the Brush truck acquired Bayville. Still awaiting on the title so we can insure and register it.

While the truck is over 20 years old, it is newer than the current 5609 and appears to be mechanically sound. It has both a water and foam tank on it. The latter will be beneficial for the vehicle fires the company responds to once or twice a year off road.

It did not come with a booster reel or a winch which it will need both. Additionally, the utility body is rusted through on the underside

Looking down the road at the short, mid, and long range, this truck will have to last, and be reasonably functional for the next couple of years. At that time, there can be a couple of options to explore. Whitesville should have their new engine at that time which should make 5709 available to relocate to 56. As this truck is only a couple of years new than the Bayville truck, it will only be a temporary fix. Within a year or two of this the payment on the 56 truck should be freed up, followed by the payment of the 57 truck. If we take the time to reevaluate the District's fleet, along with its equipment, it should be possible to look at purchasing a new brush unit around this time.

Knowing this, after discussions with the Chief, the company would like to donate the labor needed to add a booster reel and winch to this newly acquired truck, if the District would purchase all materials. Additionally, one member can have the company where he is employed build inserts for the compartments on the utility body so the proper equipment can be stored within the utility body. His feeling is they will donate the labor if the District picks up the material.

I have spoken to B9 who is more than willing to let us to their repair yard to see if we can locate a reel and winch for our use.

They also would like to have the truck painted. As it will be part of the fleet for a couple of years, matching their current paint scheme is important to the morale of the Company. Again, knowing all this, the company is willing to paint the truck themselves if the District would purchase the paint.

The Chief will be supplying a material list, with costs this week. Will need to then go thru the budget as it stands now with the accountant to see where we stand financially. We have been purchasing needed new equipment for the new truck which has cut the budget thin. We have made most of our annual planned purchases except for the air cylinders and scba harness. This is an annual purchase and should not be skipped.

Planning was looked at using extra monies for PPE repairs which are not pressing, new pagers, and replacing aged out, but still good, hose. Additionally, the new truck is now scheduled for the end of the year due to COVID delays. Some purchases can be delayed, and some monies can be moved around

Status on new Chiefs vehicle for Cassville to be ordered. Need to meet with company chief to review command box and markings.

5605, Atlantic Highlands went elsewhere. EES reports it need about \$12,183 worth of work. With the replacement truck not due until the end of the year, what does the Board want to do.

Public vote for new Whitesville engine Pushed back to General Election due to Executive Order 164. Base on the current budget being stretched to purchase new equipment, rethinking the amount to be financed should be reevaluated to include equipment. While financing the equipment is not the best thought, expecting it to last the lifetime of the truck night make it palatable.

Career staff SOGs are progressing. Most of the Organization & Personnel and Command Procedures sections are completed. Beginning to turn out the Fire Operation section.

Still tweaking a substance abuse policy. Working on COVID return to station policy

Received the Brush truck acquired Bayville. Will need to look into paint and radio

AFG grant request is submitted.

Parking lots at both Stations are failing and need to be worked on.

Audit is waiting for actuaries from the State to be competed
