*This proof is a mock up of the final product. Proportions and placement of design elements will vary slightly. Images use shading to enhance realism, which may cause the colors to appear darker. Screen colors and printed colors may vary, to ensure accurate color matching please provide us with a PMS color (pantone matching system). Photo wraps and stock wraps are not seamless. If you would like your tumbler to appear seamless, a vertical color bar can be added to the custom wrap design. Upon approval of this design you are also approving it's use in Signature Tumblers' promotional items.
