
JOB DESCRIPTION

Job Title: Senior Project Engineer
Location: Farmington Hills, MI

Summary

Our client is Autoneum. They are a global technology leader in acoustic and thermal management solutions for motor vehicles. The company is a partner for the major light vehicle and heavy truck manufactures around the world. Autoneum provides innovative and cost effective solutions for noise reduction and thermal management to increase vehicle comfort and value.

This individual will work on various Chrysler and GM programs, leads the Product Engineering team, and collaborates with the design staff, systems development, laboratory personnel, tooling, manufacturing and process engineering, and tier two suppliers for the assigned project. Primary among these tasks is to perform Engineering Analysis as described in the ISO/TS procedures for the project's Bill of Materials.

Essential Duties and Responsibilities

- 5-8 years' experience in product engineering.
- 1 year vehicle interior experience.
- Acoustic experience preferred.
- Experience with current customer base (Chrysler/GM) is necessary.
- Must have the ability to respond to common inquiries or complaints from customers, regulatory agencies, or members of the business community.
- Must have the ability to apply mathematical operations to such tasks as frequency distribution, determination of test reliability and validity, analysis of variance, correlation techniques, sampling theory, and factor analysis.
- Must be able to interpret an extensive variety of technical instructions in mathematical or diagram form and deal with several abstract and concrete variables.
- Fluent in English.
- Strong knowledge of MS Office Suite, MS Project, E-mail, Siemens Team Center, knowledge of manufacturing software, and database software.

Qualifications

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Education/Experience:

- Bachelor's degree in Engineering (minimum), Master's degree preferred

There is no relocation assistance associated with this position. NO RECRUITERS PLEASE.

If you meet all of the qualifications listed above, please send your resume w/ cover letter (include the position you are applying for) to: LM@thegreenenterprises.com

The primary purpose of this job description is to summarize the key/essential duties. Other duties may be assigned.

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The qualifications and physical demands described are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.
