A Little About Our Company...

HP Electric Motor in Port Huron, Michigan is a female-owned business housed in a 14,000 square foot facility. We provide the finest repair, sales, and replacement options to all of our clients; including pickup, delivery, and on-site service in Michigan, Ohio, Indiana, and Canada.

With over 20 years of experience in the industry, our team provides exceptional workmanship and competitive pricing to our industrial, commercial, municipal, and residential clients. We use the latest diagnostic technology to provide high-quality service and quick turnaround. Electric motor repair is what we do and helping people is our passion. Our team continually strives to educate our clients and find options for them to help improve efficiency, longevity, and durability. Your support begins with free evaluations and extends through our warranties.
