

Silopack 4D Plant

MOST ADVANCED - GRASS CUTTER, SILAGE MANAGEMENT & PACKING MACHINES

WHAT IS SILAGE??

Silage-making is a fermentation process aimed at preserving forage in its wet state away from air. One is seeking to lose minimum dry matter and nutritional value and to avoid creating products toxic to the animal. Good silage is light brown in colour, has a sharp taste and little smell as its lactic acid content is right. It is very stable and can be kept for years if required.

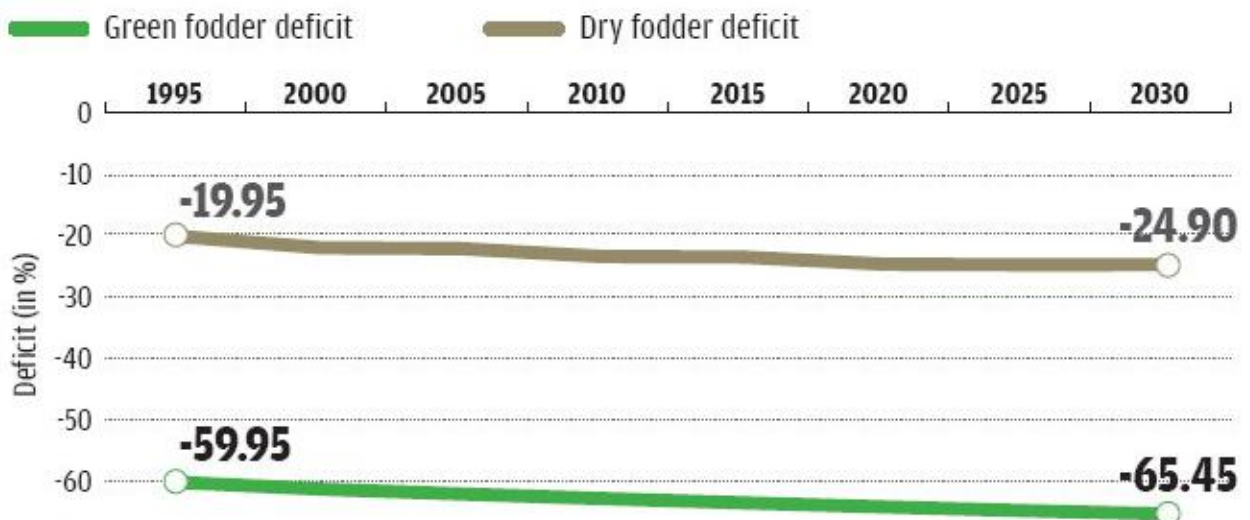

We call it GREEN BANK you own 24/7 sorce for feed

WHY SILAGE AS SURVIVAL FOR DAIRY??

A dedicated amount of **feed** and **fodder** is needed for the cattle to survive and to produce milk. Providing the right quantity of **feed** is a matter of concern for every cattle owner. **India** is facing acute **shortage** of **feed** and **fodder** and its negative influence on the dairy economy is being discussed widely.

The **shortage** of dry **fodder** is 35 per cent, estimates the national institute that is under the administrative control of the **Indian** Council of Agricultural Research. ... But with the acute **fodder shortage**, sustaining cattle has become extremely difficult in drought-affected areas

Fooder shortage will widen if corrective measures are not taken

SILAGE MACHINES WITH 4 SPECIAL DRUM PACKING

OPERATED BY TRACTOR OR 15 HP ELECT. MOTOR

READY SILAGE 50-55 KG EACH BAGS

STORAGE OF BAGS

24/7 feed solution to dairy farmer

VIDHATA 4D SILAGE PACKING MACHINES INDIA (SILOPACK 4D)

OUR SPECILLASION TO CRUSH MAIZE GRAINS FOR MAXIMUM ANIMAL ABSORBTION AND MORE MILK EVERY KG OF SILAGE

VIDHATA 4D SILO PACKING MACHINE
COMPONENTS: IF PURCHASE FULL PACKAGE

1. JF 40 MAX / JF 60 MX SILAGE GURU CHAFF CUTTER
2. DIESEL ENGINE / ELECT MOTOR / TRACTOR
3. PACKING MACHINE 4D
4. HYDRAULIC SYSTEM

TECHNICAL SPECIFICATIONS

- CORN CRACKING TECHNOLOGY FOR 9% PROTIEN SILAGE
- CUT SIZES: 5mm AND 13mm SUITABLE FOR COWS, GOATS & BUFFALO
- NO. OF BLADES : 4
- SILO PACK 4D : 4 ROTO PACKING DRUMS WITH 50 KGPACKING CAPACITY EACH HYDRAULIC SYSTEM
- HYDRAULIC PUMP (ENGINE DRIVE CLOSE COUPLED TYPE)
- HYDRAULIC PIPES AND ASSESORIES
- HYDRAULIC TANK WITH OUT OIL

BENIFITS

1. 50-55 KG BAGS , EASSY TO HANDLE AND TRANSPORT AS PER INDIAN CONDITIONS
2. ORGANIC PROCESS
3. INCREASED MILK YIELD BY 30%
4. HIGH DM INTAKE
5. BETTER MILK QUALITY BY INCREASED PROTIEN AND FAT
6. IMPROVE ANIMAL HEALTH
