Active Shooter Defined

The Active Shooter is an individual who is engaged in the random and indiscriminate killing of the people being encountered in a confined and populated area.

*Should there be a **Specific Target** the shooter is seeking; the shooter will kill, or attempt to kill, all who are encountered as he searches the building for his intended victim.*

When an *Active Shooter* or any type of *Violence* enters the workplace; whether it is your organization, a shopping mall, store or another business you are visiting, the event will be unexpected, unpredictable, extremely violent and will evolve quickly and chaotically. *Your response*; as well as how your employees, managerial personnel and visitors respond to the *Active Shooter or Violence*, will prove to be the determining factor in how many individuals *Survive* the assault. Preparing for; as well as responding appropriately, to an *Active Shooter or Violent Encounter* who enters the Workplace requires a comprehensive training program so that you and your personnel will know how to respond. Your basic responses when an Active Shooter enters the workplace are: Evade the shooter, Escape from the building, Hide from the shooter when escape is not possible and the Engagement of the shooter when you are trapped and there are no other options available.

It is important to acknowledge the *fact* that the majority of the Active Shooters who enter the workplace will be *known* to one or more of your employees. The Active Shooter may be a current or former employee; a disgruntled client or customer; or an intimate partner of one of your employees. Education and Planning; along with well-established and communicated Company Policies, Procedures & Guidelines, are essential when addressing the issue of this type of violence entering the workplace.

Our *Active Shooter & Violence in the Workplace Seminar* can be conducted at your facility; or we can arrange on your behalf an off-site meeting location. Additionally; the Security Professionals at **Lehigh Valley Paladin, LLC** are available to consult with you and your organization with a Risk Assessment, Analysis and the Evaluation of your facilities through the concept, design and implementation of a structured plan of action to deal with these horrific events.

For more detailed information on our *Active Shooter in the Workplace Seminar*; as well as the nature and scope of the advisory and consulting services we can provide, please do not hesitate to contact us.

For additional information on scheduling this Seminar as an internal continuing educational program for your administrative, managerial and security personnel please contact our Training Director: **Dr. Diana Sorrentino**.
