

Theraphi device is the first experimental biophysics treatment sufficiently powerful to challenge the supremacy of biochemical medications for the treatment of joint pain, internal infections, diminishing mental acuity, depression and addiction.

The first device arrived in Victoria BC in late '16 and is available by appointment with practitioner Laurie Pryce for \$75/session.

Sessions last approximately 10 minutes and remarkably can have powerful effects remotely, allowing clients to bring along a photo of a loved one who'll receive the benefits from the bio-active field created by the Theraphi device.

The gentleman pictured here brought a photo of his 89 year old father for two sessions in two consecutive days; both recounted considerably more 'pep in their step' and a sweet, loving afterglow from the treatments.

Book your Theraphi treatment today with Laurie Pryce by email at stillpoint22@gmail.com or by phone at 778-433-6733
