Whether exploring a representational scene or an abstract theme, my focus is the synchronicity of life and events reflected through acrylic water media paintings. As a contemporary artist I gain inspiration from many sources including my own poetic compositions. Connecting the dots is great fun.

My intent is to create paintings that engage the viewer's imagination through the use of vivid color, wide ranging stylistic variations and varied mixed media techniques.

My affiliations include A.R.T. and the Rio Grande Art Association. Exhibits include galleries, public facilities and private collections.
