

Is The Bible a Hoax, a Book of Meaningless Riddles?

God gave us a star sign and told us about it 2000 years ago in Revelation 12. It's aligning right now, and will be perfectly complete by 9/23/17. This sign, as the Bible warns, points the way to announce the beginning of the Great Tribulation and the incarnation of Satan to Planet Earth. I say we shouldn't laugh this off. After all, God created the stars 'to declare the glory of God' and for 'signs and seasons' per Genesis 1:16. And the explanation for that star sign is all written down for us by John in Revelation 12. It's not a joke or a meaningless riddle and nobody should take it as such. It's a huge message to all of us from God, a star sign given to us by God so we can wake up and know what is going on around us when the entire world loses its mind and all Hell breaks out on Planet Earth.

Some people, looking to make money and possibly even to lead people astray as agents of the Dark Side—some such people are making a mockery of the Star Sign by making wild, unbiblical claims of a pretrib rapture of the believers to occur on that date or shortly thereafter. So if nobody gets raptured, and if a big planet doesn't crash into the earth on 9/23, then that will prove the Bible is a joke. Just another hoax, another Internet scare. Crazy Christians talking nonsense.

So I'm trying to warn people about opportunists who have no respect for the scriptures, people who twist and wrest the scriptures around to make them say what they want, reading things in that aren't there and reading things out that are there.

I am also urging people to take that Revelation 12 star sign seriously. In fact, we all should have been paying attention a lot sooner, and filling up the churches with revivals of people repenting and turning back to God. But the time is still here to do that—the time to repent, to give God the respect and attention He deserves. Forgetting God is not a good idea in these days—and the time has come to turn our hearts to God in prayer and repentance and prepare for 7 years of Hell on earth that is coming, thanks to Satan. Thanks to Satan and Satan's partners who are working to destroy the earth and the people on the earth by building a real, literal

portal to Hell and to places in the universe where devils live and play.

Satan is a real creature, very powerful and deceptive and persuasive, and who is in a contest with God to destroy the Earth and lead as many people into Hell as possible. Evil is real. It exists.

David Meade is a spokesman for the Revelation 12 star sign who is claiming that 9/23/17 will be Rapture Day for Christians (and if not 9/23 then he says wait for early October and then we' ll all get raptured per Tim LaHaye Left Behinder fiction books). The editor of Planet X News is promoting David Meade' s articles and his books also.

But I want to recommend information on the Internet for people wanting some useful information on the star sign. Anthony Patch has been interviewed hundreds of times in radio interviews around the world (see below) for the past few years on the subject of the star sign and the activities of the CERN conspiracy to invite devils in to take over the planet. Anthony Patch is an author, but I don' t think he' s making up stories to sell books, but I know he' s also not inventing Bible doctrine out of thin air or off fictional novels based on Disneyland. I' m finding his input on this subject of what to expect as a result of the 9/23/17 star sign to be in line with the Bible. Anthony Patch has no happy Disneyland fairy tales to sell, no happy-time lies some people might prefer to believe. But for those looking for Truth, I recommend you go listen to some of his interviews. The Tribulation is not a time to be happy, so that message isn' t out there by any reputable person discussing this issue.

Rapture from the Abyss: Patch agrees that there will be a rapture on 9/23/17 - but he says it will be another kind of rapture - rapture of the demons and damned souls in the Abyss to escape their restraints placed there by God, and allowed to come up to earth and walk around with us topside. If all of this seems too far out there, I ask you to consider again the fact that God didn' t put the star sign of Revelation 12 in our Bible for no reason. Our Bible is not a book of meaningless riddles and silly stories, and after 6000 years we are entering into the last 7 years of ordinary mortal life on Planet Earth. Revelation tells us we are entering into a time known as the Great Tribulation, and this is going to be a crazy time. And it starts in two days-- 9/23/17 is the first day of the Great Tribulation. The CERN monstrosity is stranger than fiction, and more evil than any horror movie we' ve ever seen. But it' s real. It' s worse than putting mercury in baby' s vaccines, and it' s worse than chemtrails, and it' s worse than wars if we can imagine anything worse than war.

Portal to Hell: To find out more about what' s coming in these next 7 years, we can find Anthony Patch interviews and website online. I have not found his information to conflict with the Bible. If you want fairy tales then head on over to Planet X News. Otherwise, they say that truth is stranger than fiction - so I guess this proves it because Anthony Patch has been warning in hundreds of radio interviews that this monster machine known as CERN, (owned by the Vatican and installed in Geneva, Switzerland), has already built a portal to Hell and back, just like the Bible warns will happen in the Last Days.. Patch seems to me to be one of those people that God put in the right time at the right place to know the right stuff to tell us, warn us. Just like God had Dr. Judy Wood here to tell us the truth about 9/11. I just discovered Anthony Patch myself. Find his interviews online and listen, and find out what the PTB have planned for this planet. It marries right along with all the things we read in our Bible.

FW: (1) WARNING: Anthony Patch - CERN Will Resurrect NIMROD and His Band of Nephilim Demons - YouTube

<https://www.youtube.com/watch?v=LyVKOVp0rNo&t=3721> Right around 1, Patch says they are now resurrecting Osiris by way of the CERN contraption. Antichrist. They have his real head in a jar, well-preserved, stolen by American soldiers when they invaded Iraq. This is too much. Listen in.

We all need to find out more about CERN. I didn' t know that the Vatican owned it. It operates out of Sweden. Its purpose is to open a portal into the Abyss (the bottomless pit of Hell) ... and to create other portals as well linking to fallen angels, ie with some of the planets (ie Saturn). The people spending all these trillions believe that fallen angels live on these places and the goal is to make a way for them to come to us and for us to go to them. Why would they want to do that, you ask? Well, yeah. That' s exactly my question too. I wonder why the pastors are not asking that question.

Also, by way of DNA the people behind CERN (ie Vatican) is looking to run everybody like a robot, literally. That means you and me. Patch has information also on this Mark the Bible speaks of that without it one cannot buy or sell. It' s more than just a tattoo. Much more.

I haven' t paid attention to CERN because the people who were talking about it seemed to be just sensationalists. Now that 9/23 is upon us and there are wacked out imposter Christians claiming rapture of Christians will

happen I began researching why this was happening. That's how I found Anthony Patch. If you want to hear what he has to say in this Haggman interview - especially if you skip to 1 hour, it's too much.

So yeah - looks like a rapture may be in the works, but not the kind of rapture that David Meade is peddling on Planet X News. CAB

DisCERNment or Deception with Anthony Patch

Researcher, Author & Speaker, Anthony is best known for his extensive, leading-edge and revelatory research focused upon the work being done in Geneva Switzerland with the Large Hadron Collider, part of the CERN organization. Specifically, as these experiments, and science itself, relate to Bible prophecy.
