How Thompsons Took Up Cause

Daughter's Accounts of Autism Led Pimco Vet, Wife on Journey

By KIM HAMAN

What happens when an executive who spent a career trying to stay ahead of where markets might move hears a story that leads him on a different journey?

It's a thought that occurred to former Pacific Management Investment Co. Chief Executive Bill Thompson as he recently reflected on how conversations with his daughter set him and his wife, Nancy, on a path that eventually led to the founding of autism research and treatment centers a couple of thousand of miles apart.

The Thompsons had no direct experience with autism. None of their family members

and treatment centers a couple of thousand of miles apart.

Beyond Work

Segerstrom Center's Street Smarts

Education Programs Aim for Neighborhoods

By KIM HAMAN

Luis Castillo experienced something entirely new when he was touched by the Summer at the Center program back in 1994.

He was 17, he recently recalled, and had never been exposed to the arts.

Life in one of Santa Ana's toughest neighborhoods had exposed him to others things, though—enough to put him in the category of "at-risk youth."

Castillo had no idea how the arts might

change him and his outlook on the world when he entered the two-week summer program designed by the Segerstrom Center of the Arts to give kids in rugged circumstances a chance for a new perspective.

"The only real knowledge I had was learned on the streets," he recently said. "Summer at the Center taught me to think of myself in a positive way at a time when I needed true direction."

Flash forward 20 years, and you'll find

St. Joseph Health Backs Big Office Buy in Mission Viejo

HEALTHCARE: Innovation Institute gets four buildings, 263,000 SF

By MARK MUELLER

The Innovation Institute LLC, a La Palma-based for-profit healthcare company formed by St. Joseph Health in Irvine last year, has taken over ownership of four medical buildings surrounding Mission Hospital in Mission Viejo.

St. Joseph Health, the nonprofit owner and operator of Mission Hospital, is lending the Innovation Institute \$130 million to fund the purchase, according to loan documents.

Terms of the portfolio purchase were not immediately disclosed, but the deal for the four buildings—which total about 263,000 square feet of office space—appears to be among the most expensive commercial real estate sales in Orange County so far this year.

The largest of the four buildings is the Mission Medical Tower, a five-story, 120,000-square-foot medical office building on Crown Valley Parkway.

Also trading hands, according to loan documents, are a trio of offices at 27800 Medical Center Road. Those multitenant buildings total about 143,000 square feet.

Amway Bolsters OC Operations With \$42M Investment in Nutrilite

MARKETING: Manufacturing, R&D upgrades in Buena Park

By JANE YU

Amway Corp. is expanding the Buena Park operations of its Nutrilite supplements brand with a \$42 million investment for new manufacturing and research facilities.

Nutrilite, which makes vitamins, minerals and other health supplement products, notched about \$5 billion in sales last year and accounted for roughly 45% of its Ada, Mich.-based parent's total sales of \$11.8 billion.

It makes about 15 billion tablets and capsules a year and is known as the "world's No. 1 selling vita-
