### WOUND CLEANSING

#### ReliaMed® Wound and Skin Cleanser

**LATEX FREE**

Nontoxic, pH-balanced to skin, nonirritating wound cleanser gently removes debris and dressing residue from the wound bed. Does not require scrubbing or rinsing. Ideal for all types of wounds, including Stage I – IV pressure ulcers, stasis ulcers, diabetic ulcers, post-surgical wounds, first- and second-degree burns, abrasions and minor skin irritation. Helps reduce odor. Spray bottle pressure is 8 psi in accordance with AHCPR guidelines. Made in the USA.

# WOUND CARE

## RELIAMED®

Indicates this product is **NOT** manufactured with natural latex components. **LATEX FREE**

### ADVANCED WOUND CARE

#### ReliaMed® Alginate/CMC Dressings

**LATEX FREE**

Soft and comfortable to wear. Highly absorbent; fluid wicks vertically into the dressing, minimizing the possibility of periwound skin maceration. Calcium in the dressing promotes hemostasis. Blend of calcium alginate and CMC (carboxymethyl cellulose) provides excellent gelling and wet strength for one-piece, nontraumatic removal. Contraindicated for use on individuals with a known sensitivity to calcium alginate. Sterile.

	ITEM #	HCPCS	SOLD BY
2" x 2"	ZCA22	A6196	10/bx
4" x 4"	ZCA44	A6196	10/bx

12" rope	ZCA12R	A6199	5/bx
18" rope	ZCA18R	A6199	10/bx

#### ReliaMed® Silver Alginate/CMC Dressings

**CONTAINS SILVER** **LATEX FREE**

Controlled silver ion release provides a broad spectrum of antimicrobial protection for up to 14 days. Effective against MRSA (methicillin-resistant staphylococcus aureus), MRSE (methicillin-resistant staphylococcus epidermidis) and VRE (vancomycin-resistant enterococci). Absorbency and wet strength are key performance indicators. Blend of calcium alginate and CMC (carboxymethyl cellulose) provides excellent gelling and wet strength for one-piece, nontraumatic removal. Highly absorbent; fluid wicks vertically into the dressing, minimizing the possibility of periwound skin maceration. Reduces odor primarily caused by bacteria. Can be used for postoperative wounds, trauma wounds, leg ulcers, pressure ulcers, diabetic ulcers, graft and donor sites. Calcium in the dressing promotes hemostasis. Contraindicated for use on third-degree burns, dry or lightly exuding wounds, individuals with a known sensitivity to silver and/or calcium alginate. 2" x 2" size is ideal for diabetic foot ulcers. Sterile. **Caution: Federal Law restricts this product to sale by or on the order of a physician or licensed practitioner.**

18" ribbon	ZSCA18R	A6199	10/bx

#### ReliaMed® Foam Dressings

**LATEX FREE**

Extra-soft, small-pore foam minimizes lateral wicking of wound exudate. Highly absorptive to manage high levels of exudate. Breathable top film is bacteria-proof and waterproof. High MVTR (moisture vapor transmission rate) leads to longer wear time between dressing changes. Conforms to awkward sites. Foam dressings without an adhesive border can be secured with a conforming bandage or tape. Excellent elasticity. Contraindicated for third-degree burns. Foam heel fits snugly around the heel to provide cushioning and wound exudate absorption. 4" x 4" and 6" x 6" nonadherent pads are suitable for patients with sensitivity to adhesives. Also available with an adhesive border for ease of application.

	ITEM #	HCPCS	SOLD BY

4" x 4" pads with 6" x 6" adhesive border	ZDF66B	A6212	10/bx

#### ReliaMed® Hydrocolloid Dressings

**LATEX FREE**

Specialized hydrocolloid formulation effectively absorbs wound exudate for cleaner, less painful and easier-to-care-for wounds. Beveled edge design reduces the risk of edge lift and rolling or bunching of the dressing. Thin dressings are indicated for lightly draining wounds and are translucent to allow for wound site monitoring. Foam-backed dressings are ideal for managing mild to moderately draining wounds and provides an extra layer of cushioning and comfort for patients. Maintains a moist wound environment to accelerate healing. Adhesive interacts with the skin's moisture to provide a secure seal. Uniquely smooth, low-friction film backing reduces shear forces that can contribute to skin tearing. Waterproof and frequently used as secondary dressings to hold other products in place and prevent contamination. May also be worn in the shower. "Z" fold release system simplifies the application of the dressing, even with gloves, and eliminates the risk of contact with the adhesive surface. Flexible for easy application. Non-traumatic removal if dressing is left in place until gel bubble under surface is close to the edge. Sterile. Latex-free. Made in the USA.

### ReliaMed® Silver Hydrogel

**CONTAINS SILVER** **LATEX FREE**

Kills microorganisms, including MRSA (methicillin-resistant staphylococcus aureus), within minutes. Combines the benefits of hydrogel with the antimicrobial properties of silver. Effective against a broad spectrum of bacteria and fungi. Gentle on underlying, healthy tissue. Indicated for the management of partial- and full-thickness wounds with light to moderate exudate; pressure, diabetic foot and leg ulcers; skin abrasions, lacerations and tears; first- and second-degree chemical or thermal burns; and surgical, grafted and donor sites. Made in the USA. Nonsterile. **Caution: Federal Law restricts this product to sale by or on the order of a physician or licensed practitioner.**

	ITEM #	HCPCS	SOLD BY
1.5-oz. tube	ZRSHG15	A6248	ea

### ReliaMed® Hydrogel Impregnated Gauze Non-Adhering Dressings

**LATEX FREE**

Useful for rehydrating necrotic tissue and enhancing autolytic debridement. Helps provide a moist wound environment for minimally exuding wounds. Ideal when moist packing for full-thickness wounds is necessary. For use on Stages I – IV pressure ulcers, surgical incisions, thermal burns, cuts, abrasions and venous stasis ulcers. Sterile.

	ITEM #	HCPCS	SOLD BY
4" x 4"	ZGIH44	A6231	10/bx

### ReliaMed® Petrolatum Impregnated Gauze Non-Adhering Dressings

**LATEX FREE**

Designed to provide nonadhering packing for full-thickness wounds, providing a moist environment conducive to wound healing. Made of fine, soft, conformable gauze impregnated with white petroleum. White petroleum properties minimize trauma to wounds when removed. Ideal for Stage II – IV chronic wounds, tunneling wounds and noninfected wounds. Sterile.

	ITEM #	HCPCS	SOLD BY

### ReliaMed® Pre-Cut Tubular Elastic Dressing Retainer (Perineum Panty)

Tubular elastic retainer is specifically cut to fit perineum section. Constructed from a polyester and rubber mix. Secures bandages or any type of medical devices in place without adhesive tape. Smooth surface increases patient comfort. Allows maximum airflow. **Contains latex.**

	ITEM #	HCPCS	SOLD BY
Small/Medium, 2.4" x 15"	ZG620	A4649	ea
Large/X-Large, 3.1" x 15.7"	ZG622	A4649	ea

## RELIAMED®

Indicates this product is NOT manufactured with natural latex components.

**LATEX FREE**

### ReliaMed® Self-Adhesive Dressing Retention Sheet

**LATEX FREE**

Comfortable, highly conformable, nonwoven, water-resistant dressing retention tape stretches for easy application and patient comfort. Secures dressings, tubes, cannulas, drainage devices and instruments. Air and moisture vapor permeable. Nonirritating adhesive acts as a secondary dressing for gauze, foams or gels. Does not restrict joint movement.

## WOUND PROTECTORS

### ReliaMed® Heel and Elbow Protectors

Helps prevent decubitus ulcers by reducing pressure, shearing and friction on heel or elbow. Comfortable; allows skin to breathe and does not restrict blood flow. Consists of a knitted tube of soft fabric with a foam pad stitched inside. Remains firmly in place. Color-coded sizes make fitting patients easy. Measures limb circumference for size. **Contains latex.**

	ITEM #	HCPCS	SOLD BY

## WOUND CARE

### KOSMA-KARE, INC. (KZ)

#### ZnO Zinc Oxide Tape

The original latex-free, zinc oxide-based, ostomy fixation tape. First to offer a performance-comparable tape product to replace latex-based adhesive tapes. Flexible, washable and waterproof. Conforms easily to body contours. Easy on the skin; adheres easily and securely, yet removes painlessly without skin breakdown. Eliminates the need for skin prep wipes or spray. For a variety of applications: dressings and ostomy pouches stay in place without deteriorating, extending wear time. Ideal for delicate skin (infants and children). Ideal for securing catheters, lines and tubing.

### MEDIPURPOSE® (SE)

#### MediPlus Super Foam Ag

Effective tri-layer technology: outside breathable film provides bacterial barrier and moisture vapor transmission. Inner foam layer absorbs fluid at five times its weight. Antimicrobial silver (Ag+) coated wound contact layer is a laminated polyurethane net, to help reduce microbial growth and prevent the dressing from sticking to the wound. 79 ppm of elemental silver is bound within the wound dressing to inhibit bacterial growth, which helps prevent colonization. Silver is effective up to three days within the wound dressing; silver ions remain in the wound dressing and do not migrate into the wound. Provides proven antibacterial effectiveness against microorganism (bacteria), enterococcus faecalis, escherichia coli, klebsiella pneumonia, proteus mirabilis, staphylococcus aureus and streptococcus pyogenes. Indicated for exudate absorption and management of partial- to full-thickness wounds, including ulcers (venous, arterial and diabetic), pressure sores, donor sites and surgical incisions, surgical excisions and first- and second-degree burns. Sterile. **Caution: Federal Law restricts this product to sale by or on the order of a physician or licensed practitioner.**

## AQUACEL® DRESSINGS

### AQUACEL® Foam Dressings

Offer comfort and simplicity, plus the healing benefits of an AQUACEL® interface. Barrier provides evaporation of excess moisture, a waterproof barrier against viral/bacterial penetration and allows user to shower and bathe. Soft, absorbent foam pad enhances user comfort and absorbs excess fluid. AQUACEL® interface gels on contact with wound exudate to maintain a moist environment. Locks in wound exudate, including harmful components. Vertical wicking prevents lateral spread of fluid, reducing risk of maceration. Micro-contours to the wound bed, minimizing dead space where bacteria can grow. Gentle silicone border designed to adhere to surrounding skin, not to the wound bed. Skin-friendly adhesive supports simple application and removal. Demonstrated low potential for dermal irritation or allergic contact sensitization.

### AQUACEL® Ag Foam Dressings

The only silver foam dressing that offers the moist wound healing benefits of an AQUACEL® Ag interface, the comfort of foam and the bacteria-killing power of ionic silver. Features proprietary Hydrofiber® Technology, which gels on contact with the wound surface to lock in wound exudate and harmful bacteria. Micro-contours to a simulated wound bed, minimizing "dead space" where bacteria can thrive.

### AQUACEL® Ag Hydrofiber® Wound Dressings with Ionic Silver

Silver-impregnated antimicrobial dressing with benefits in addition to those of AQUACEL® dressings. The Hydrofiber® properties conform over the wound surface, creating a contact that allows for optimal exposure to bactericidal silver ions. Ionic silver starts killing a broad spectrum of pathogens within 30 minutes of exposure to the dressing as demonstrated by in vitro testing, including MRSA and VRE.

8" x 8"	187662	A6236	5/bx
8" x 12"	187644	A6236	5/bx

### DuoDERM® Signal® Dressings

Combine the convenience of a visual indicator to signal the proper time to change the dressing, along with the added feature of tapered edges to reduce rolling and bunching up. Both features offer the benefit of initial wound monitoring, potentially reducing premature dressing removals. Fewer dressing removals can produce increased

cost-effectiveness, as well as reduced pain for the patient and reduced disruption to the wound bed. Provide exudate absorption and an optimal moist wound environment that is supportive of the healing process. Provide a viral and bacterial barrier while intact and without leakage. Can be used as a primary or secondary dressing.

## CARBOFLEX® DRESSINGS

### CarboFLEX® Odor Control Dressings

Designed to give caregivers a flexible and effective alternative for managing draining and malodorous wounds. Sterile, multilayer construction includes a comfortable, soft, nonadhesive wound contact layer; a fibrous layer that turns into a gel as it interacts with, and absorbs, wound exudate; and an active carbon layer that works to reduce odor. Can be used as a primary or secondary dressing.

## MÖLNLYCKE HEALTH CARE (SC)

### PRODUCTS FEATURING SAFETAC® SOFT SILICONE TECHNOLOGY

#### Mepilex® Border Sacrum Self-Adherent Foam Dressings

Self-adherent, bordered foam dressing featuring Safetac® soft silicone technology in sizes ideal for the sacral area. Absorb exudate effectively and minimize the risk of periwound skin maceration and erosion. The film backing is moisture vapor permeable, moisture proof and provides a bacterial barrier. Indicated for exuding wounds, painful wounds and wounds with compromised or fragile periwound skin, such as pressure ulcers and diabetic ulcers.

	ITEM #	HCPCS	SOLD BY
7.2" x 7.2"	282000	A6213	5/bx
9.2" x 9.2"	282400	A6213	5/bx

#### Mepilex® Border Post-Op Self-Adherent Foam Dressings

Self-adherent, bordered foam dressing featuring Safetac® soft silicone technology in post-operative sizes. Absorb exudate effectively and minimize the risk of periwound skin maceration and erosion. The film backing is moisture vapor permeable, moisture proof and provides a bacterial barrier. Indicated for exuding wounds, painful wounds and wounds with compromised or fragile periwound skin.

	ITEM #	HCPCS	SOLD BY
4" x 8"	295800	A6212	5/bx
4" x 10"	295850	A6213	5/bx
4" x 12"	295900	A6213	5/bx

#### Mepilex® Lite

Thin foam dressing featuring Safetac® soft silicone technology that is highly conformable, absorbs low to moderate amounts of exudate and helps maintain a moist environment while minimizing the risk of periwound skin maceration. May be used under compression bandages.

	ITEM #	HCPCS	SOLD BY
2.4" x 3.4"	284090	A6209	5/bx
4" x 4"	284190	A6209	5/bx
6" x 6"	284390	A6210	5/bx
8" x 20"	284590	A6211	2/bx

#### Mepitac®

Soft silicone tape designed for fixation of medical devices, such as drains, tubes, probes, electrodes, IV cannulae and dressings. Consists of a Safetac® soft silicone layer, a knitted fabric and a breathable polyurethane film. Highly conformable; easy to apply and remove; leaves no residue; and moisture proof. Ideal for patients with fragile and sensitive skin or who require repeated application and tape removal over the same area.

	ITEM #	HCPCS	SOLD BY
0.75" x 118"	298300	A4452	12/cs
1.5" x 59"	298400	A4452	12/cs

#### Mepilex® Transfer

Exudate transfer dressing featuring Safetac® soft silicone technology. Thin, conformable and designed for a wide range of exuding and difficult-to-dress wounds, such as radiation skin reactions, EB and fragile skin. May be used as a protective layer on minimal or low exuding wounds. Large sizes enable coverage of large, awkward areas.

	ITEM #	HCPCS	SOLD BY
6" x 8"	294899	A6210	5/bx
8" x 20"	294599	A6211	4/bx

#### Mepitel® One

Unique advanced contact layer dressing features Safetac® soft silicone technology. This single-sided product is easy to handle and apply since the Safetac® layer is only on the wound contacting side of the product compared to other contact layers. The Safetac® layer minimizes trauma to the wound and pain to the patient during dressing changes because it does not stick to moist tissue—only to intact skin. Ideal for skin tears, fixation of grafts, traumatic wounds, partial-thickness burns, and painful skin conditions with blisters. It may be left in place for up to 14 days.

	ITEM #	HCPCS	SOLD BY
2" x 3"	289100	A6206	10/bx
3" x 4"	289300	A6206	10/bx
4" x 7"	289500	A6207	10/bx
6.8" x 10"	289700	A6208	5/bx

#### Mepitel®

Atraumatic contact layer featuring Safetac® soft silicone technology (double-sided) that will not stick to moist tissue such as a wound bed, but adheres gently to intact skin. Ideal for skin tears, fixation of grafts, traumatic wounds, partial-thickness burns, painful skin conditions with blisters and wounds in the granulation phase.

	ITEM #	HCPCS	SOLD BY
2" x 3"	290599	A6206	10/bx
3" x 4"	290799	A6206	10/bx
4" x 7"	291099	A6207	10/bx
8" x 12"	292005	A6208	5/bx

#### Mepiform®

Thin, flexible, self-adherent, soft silicone gel sheeting for scar management. Designed for discreet treatment of both old and new hypertrophic and keloid scars. Suitable for use on closed wounds to help prevent the formation of hypertrophic and keloid scarring.

	ITEM #	HCPCS	SOLD BY
1.6" x 12"	293199	A4649	5/bx
2" x 3"	293299	A4649	5/bx
4" x 7"	293499	A4649	5/bx

#### Mepilex®

Highly absorbent foam dressing featuring Safetac® soft silicone technology. Absorbs exudate effectively, even under compression bandages, and minimizes the risk of periwound skin maceration and erosion. Conforms well to body contours and can be cut.

	ITEM #	HCPCS	SOLD BY
4" x 4"	294199	A6209	5/bx
4" x 5"	294090	A6209	5/bx
4" x 8"	294299	A6210	5/bx
6" x 6"	294399	A6210	5/bx
8" x 8"	294499	A6211	5/bx
8" x 20"	294500	A6211	2/bx

#### Mepilex® Heel

Minimizes trauma to the wound and pain to the patient during dressing changes. The Safetac® soft silicone properties prevent sticking to the moist wound bed. Adheres to the surrounding skin, allowing easy application of secondary fixation. Absorbs moderate to high amounts of exudate effectively. Low risk of maceration. Indicated for moderate to highly exuding wounds, such as heel and other foot ulcers, pressure ulcers and traumatic wounds. Item # 388390 contains silver.

	ITEM #	HCPCS	SOLD BY
5" x 8"	288100	A6210	5/bx
6" x 8.8", Ag	388390	A6210	5/bx

#### Mepilex® Border

Self-adherent, bordered foam dressing featuring Safetac® soft silicone technology. Absorbs moderate to high amounts of exudate effectively and minimizes the risk of periwound skin maceration and erosion. Film backing is moisture vapor permeable, moisture proof and provides a bacterial barrier.

	ITEM #	HCPCS	SOLD BY
3" x 3"	295200	A6212	5/bx
4" x 4"	295300	A6212	5/bx
6" x 6"	295400	A6213	5/bx
6" x 8"	295600	A6213	5/bx

#### Mepitel® Film IV AM

A new clear, breathable, antimicrobial vascular access dressing featuring Safetac® technology. Unlike traditional adhesives, the silicone base of the Safetac® technology protects fragile skin and minimizes pain and trauma during dressing changes. The dual antimicrobials, chlorhexidine and silver, cover the entire patient-contacting surface of the dressing. The product has been proven to kill 99.99% of microorganisms most commonly associated with CRBSIs.\*

## MÖLNLYCKE HEALTH CARE (SC)

### Mepilex® Border Ag

CONTAINS SILVER

Safetac® soft silicone technology layer reduces pain and trauma during changes, adheres only to dry skin and seals wound margins. Polyurethane backing film is moisture vapor permeable, moisture proof and acts as bacterial and viral barrier. Multi-layered, absorbent foam pad spreads, wicks and retains exudate. Silver provides antimicrobial activity within 30 minutes and lasts up to seven days.

## ANCILLARY PRODUCTS

### Melgisorb® Calcium Alginate Dressings

Sterile, absorbent, calcium-alginate dressings for moderately to heavily exuding, partial- to full-thickness wounds. Upon contact with wound exudate, creates a hydrophilic gel, which helps to stop horizontal wicking of exudate, reducing periwound maceration while providing a moist environment conducive to wound healing. Appropriate for surface and cavity wounds.

	ITEM #	HCPCS	SOLD BY
2" x 2"	252000	A6196	10/bx
4" x 4"	252200	A6196	10/bx
4" x 8"	252500	A6197	10/bx
12.5" rope	253500	A6199	5/bx

### Melgisorb® Ag Antimicrobial Alginate Dressings

CONTAINS SILVER

Highly absorbent antimicrobial alginate dressings. The 14-day, sustained silver release kills bacteria, and the superb high fiber strength allows removal in one piece.

	ITEM #	HCPCS	SOLD BY
1.2" x 18" rope	255600	A6199	10/bx

6" x 8.5"	273000	A6259	10/bx

### Mesalt®

Sodium chloride-impregnated gauze helps stimulate the cleansing of moist necrosis (slough) in draining and infected wounds. Absorbs exudate, bacteria and necrotic material from the wound and into the dressing, thereby facilitating the natural wound healing process. Intended for the management of moderately to heavily discharging and infected wounds in the inflammatory phase and deep cavity wounds, such as pressure ulcers and surgical wounds.

	ITEM #	HCPCS	SOLD BY

# WOUND CARE

## MÖLNLYCKE HEALTH CARE (SC)

### Hypergel®

20% hypertonic saline gel for the black, necrotic phase of wound healing. Water-based, hypertonic saline gel softens eschar, and draws drainage and debris from the wound. Debrides both dry and moist necrotic tissue (eschar), which is essential for wound healing to progress.

	ITEM #	HCPCS	SOLD BY
0.17-oz. (5-g) tubes	360500	A6248	10/bx
0.5-oz. (15-g) tubes	361500	A6248	10/bx

### Mepore®

All-in-one, absorbent, sterile surgical dressing. Low-adherent pad protects healing wounds and conforms to the body so it can be applied to awkward areas. Soft, elastic, nonwoven polyester provides for a smooth, porous dressing while minimizing fluid strike-through. High air permeability allows the wound to breathe.

### Tubigrip® Shaped Support Bandages

Anatomically shaped bandages designed to support venous and lymphatic return. Provide consistent support and compression along the complete length of the limb. Primarily used in the management of venous disorders of the legs and arms, such as varicose veins, gravitational edema and lymphedema. May be washed for repeated use. White. **Contain latex.**

	ITEM #	HCPCS	SOLD BY
Small (12.6" – 14" calf or forearm measurement)	1472	A6457	ea
Medium (14" – 15.2" calf or forearm measurement)	1473	A6457	ea
Large (15.2" – 16.3" calf or forearm measurement)	1474	A6457	ea

### Tubigrip® Arthro-Pad®

Provides noninvasive mechanical support for the elbow or knee after injury or surgery. Pad is made from a double layer of natural-colored Tubigrip® with a foam interlining. Easy to apply and washable for repeated use. Natural color. **Contains latex.**

	ITEM #	HCPCS	SOLD BY

#### Lyofoam® T Polyurethane Foam Sterile Dressings

Fenestrated, sterile polyurethane foam dressing for use in the treatment of wounds associated with tracheostomy and other intubation and cannula insertion sites. Have all the benefits of Lyofoam® and provide protection and absorption over the site of intubation.

	ITEM #	HCPCS	SOLD BY
3.5" x 2.5"	603014	A6209	10/bx

## SMITH & NEPHEW (54)

### SURGICAL DRESSINGS

#### CUTICERIN® Gauze

Impregnated gauze is made of nonadherent, smooth acetate fabric with a defined mesh size and water-repellent ointment coating. Reduces the risk of granulation tissue growing through dressing. Minimizes pain at dressing change. Allows air and exudate to pass freely through dressing. For the treatment of extensive, exuding wounds, especially burns, abrasion and split-thickness skin graft donor sites.

## ACTICOAT® DRESSINGS

### ACTICOAT® with SILCRYST™ Nanocrystalline Silver

CONTAINS SILVER

Nanocrystalline, silver-impregnated, antimicrobial dressing. High-density polyethylene properties conform over the wound surface, creating a contact that allows optimal exposure to bactericidal nanocrystals of silver. Starts killing a broad spectrum of pathogens within 30 minutes of exposure to the dressing as demonstrated by in vitro testing, including MRSA and VRE. Can be left in place for up to three days.

	ITEM #	HCPCS	SOLD BY

### ACTICOAT® Absorbent Dressings with SILCRYST™ Nanocrystalline Silver

CONTAINS SILVER

Primary dressing that is an effective barrier to bacterial penetration, which may help reduce infection in moderately to heavily exuding, partial- and full-thickness wounds. Combining the potent, broad-spectrum antimicrobial action of nanocrystalline silver with the enhanced exudate management properties of alginate technology, dressings not only protect the healing environment, but also provide superior tensile strength for easy removal.

	ITEM #	HCPCS	SOLD BY
3/4" x 12" ropes	20181	A6199	5/bx
4" x 5" dressings	20381	A6197	5/bx

### ACTICOAT® Moisture Control with SILCRYST™ Nanocrystalline Silver

CONTAINS SILVER

Highly absorbent foam dressing with nanocrystalline silver technology. Provides an antimicrobial barrier to help protect against bacterial contamination and penetration. For moderately to heavily exuding wounds, minimizing the risk of skin maceration and erosion. Starts killing a broad spectrum of pathogens within 30 minutes of exposure to the dressing as demonstrated by in vitro testing, including MRSA and VRE. Can be left in place for up to seven days.

# WOUND CARE

## SMITH & NEPHEW (54)

### IODOFLEX\* DRESSINGS

#### IODOFLEX\* Cadexomer Iodine Pads

Triple-action benefit helps create an effective wound healing environment. Feature debridement of slough and soft necrotic tissue, antimicrobial activity provided in a controlled, sustained release of bactericidal iodine at a noncytotoxic concentration of 0.9%, and exudate control for wet, sloughy wounds. Pliable dressing allows easy shaping to fit wound contours and promotes a moist wound environment for rapid healing. Broad-spectrum antimicrobial activity is sustained for up to 72 hours. Color change indicates dressing change is needed.

	ITEM #	HCPCS	SOLD BY
5 g (1½" x 2¾")	6602133005	A6222	5/pk
10 g (2½" x 3")	6602134010	A6222	3/pk

#### IODOSORB\* GEL

#### IODOSORB\* Gel

For use in cleaning wet ulcers and wounds, such as venous stasis ulcers, pressure sores, diabetic foot ulcers, and infected traumatic and surgical wounds. A sterile formulation of Cadexomer Iodine. Cleans wound by absorbing fluids, removing exudate, slough and debris, and forming a gel over the wound surface. As the gel absorbs exudate, iodine is released, killing bacteria and reducing associated pain. Exudate and debris is removed effectively. Helps to promote a moist, clean wound-healing environment. A change in color (white) indicates when gel should be changed. Gel formed over the wound promotes moist healing.

### OPSITE\* DRESSINGS

#### OPSITE\* FLEXIFIX\* Transparent Film Roll

Waterproof, transparent film dressing provides excellent adherence, even while patients bathe or shower. Comes in roll form and aids in the prevention of bacterial contamination, reducing the risk of secondary infection. FLEXIFIX\* allows the skin to breathe and may reduce the risk of maceration.

	ITEM #	HCPCS	SOLD BY
2" x 11 yds.	660000040	A6259	ea
4" x 11 yds.	660000041	A6259	ea

### OPSITE\* FLEXIGRID\* Transparent Adhesive Film Dressings

Transparent film dressing is available with a simple and effective application system. The unique management grid can be written on with a ballpoint pen and provides a good record of the change in wound size.

### IV3000\* DRESSINGS

#### IV3000\* Transparent Adhesive Film Dressings

IV3000\* was the first transparent dressing designed specifically for IV site care. Patented REACTIC\* film is three to eight times more permeable to water vapor than standard film dressings. Under most situations, the unique film allows the IV site to remain dry. The risk of catheter-related infections may be reduced, unscheduled dressing changes are minimized and patient comfort is enhanced. Available in one-hand, frame and tape handle delivery.

8" x 8"	483300	A6236	5/bx

#### REPLICARE\* Thin Hydrocolloid Dressings

Maintain a moist wound environment for lightly exuding wounds, such as skin tears and abrasions, as well as partial-thickness wounds. Comfortable, conformable and cost-effective.

	ITEM #	HCPCS	SOLD BY
2 1/2" x 2 3/4"	594840	A6234	10/bx
3 1/2" x 5 1/2"	594841	A6235	10/bx
6" x 8"	594842	A6235	5/bx

#### REPLICARE\* Ultra Advanced Hydrocolloid Alginate Dressings

Improved design provides better evaporation through an adaptable, polyurethane top film that regulates moisture vapor transmission rate. This allows excess moisture to evaporate, while maintaining a moist wound environment. Top film is waterproof, easy to clean and aids in the prevention of bacterial contamination.

	ITEM #	HCPCS	SOLD BY
4" x 4"	59484600	A6234	5/bx
6" x 6"	59484700	A6235	5/bx
7" x 8", sacrum	59484900	A6235	5/bx

### PASTE BANDAGES

#### VISCOPASTE\* PB7 Zinc Paste Bandage

For use in the application of Unna boots for the management of venous leg ulcers. Also indicated for the management of skin tears and stasis eczema. Soothes dry skin and does not contain calamine. Made from a light, open-weave fabric. Simple to apply and easy to remove.

	ITEM #	HCPCS	SOLD BY
3" x 10 yds.	4956	A6456	ea

## ALGINATE DRESSINGS

### ALGISITE\* M Calcium Alginate Dressings

Made of fast-gelling, high-mannuronic acid fibers from calcium alginate, which is extracted and purified from seaweed. When exudate comes into contact with ALGISITE\* M, it forms a hydrophilic gel that remains in intimate contact with the wound surface, helping to create and maintain a moist wound environment.

	ITEM #	HCPCS	SOLD BY

6" x 8"	59480300	A6197	10/bx

### WOUND GELS

#### SOLOSITE\* Wound Gel

Amorphous hydrogel creates a moist wound environment and is noncytotoxic. The polymer used is water "swellable," allowing it to absorb exudate; yet remain gel-like until saturated.

	ITEM #	HCPCS	SOLD BY
3-oz. tube	449600	A6248	ea

### GEL DRESSINGS

#### SOLOSITE\* Gel Conformable Wound Dressings

Clean wound dressing manufactured using nonwoven gauze thoroughly saturated with SOLOSITE\* Wound Gel. The gel stays on the dressing and maintains intimate contact with the wound surface to create a moist wound healing environment.

	ITEM #	HCPCS	SOLD BY

#### ALLEVYN\* Gentle Border Silicone Gel Adhesive Hydrocellular Dressings – Multisite

Unique tri-lobe design contours closely to difficult-to-dress body areas. Ideal for curved or flat body areas. Easy to apply; can be lifted and repositioned. Minimal pain on removal for patients with fragile skin.

	ITEM #	HCPCS	SOLD BY
	66800959	A6212	10/bx

#### ALLEVYN\* Gentle Border Silicone Gel Adhesive Hydrocellular Dressings – Sacrum

Fit the patient better to help minimize pain during dressing changes. Are easy to apply and designed to stay in place even in the most challenging wound sites. Have the potential for more efficient wound care through dressing standardization. Make training staff simple.

	ITEM #	HCPCS	SOLD BY
	66800898	A6212	10/bx

# WOUND CARE

## SMITH & NEPHEW (54)

### ALLEVYN® Gentle Border Silicone Gel Adhesive Hydrocellular Dressings – Heel

Provides coverage of the malleolus, providing extra cushioning and protection. Fits easily, requiring no secondary retention. Conforms well to the complex contours of the heel. Can be used as a part of a pressure relieving protocol.

ITEM #	HCPCS	SOLD BY
66800506	A6213	5/bx

### ALLEVYN® Sacrum Dressings

Highly conformable dressing designed to adhere to the sacrum region, while not sticking to the wound surface or irritating the periwound skin. Absorb up to four times more exudate than hydrocolloids, making them perfect for lightly to heavily exuding wounds.

ITEM #	HCPCS	SOLD BY
66000700	A6213	10/bx

### ALLEVYN® Heel

Designed to fit snugly around the back of the foot, ensuring a better anatomical fit. Can be held in place with a lightly conforming bandage or tape.

ITEM #	HCPCS	SOLD BY
66007630	A6210	5/bx

### ALLEVYN® Ag Adhesive Dressings

CONTAINS SILVER

Offer the convenience of optimal fluid management plus antibacterial protection in a single, easy-to-use dressing. Ideal for exuding wounds that are infected or at risk of becoming infected with adhesive borders to stay in place. Seven-day antibacterial activity and wear time. Bacteria-proof and waterproof top film.

ITEM #	HCPCS	SOLD BY
66020970	A6212	10/bx
66020976	A6213	10/bx

### ALLEVYN® Adhesive Dressings

Stick and remain in place, even on difficult-to-dress areas of the body. May absorb up to four times more exudate than hydrocolloids and are ideal for moderately to heavily exuding wounds. Unique, porous wound contact layer allows absorption and gaseous exchange. Will not stick to the wound surface or irritate periwound skin. Waterproof; aid in the prevention of bacterial contamination.

ITEM #	HCPCS	SOLD BY
66020043	A6212	10/bx
66020044	A6212	10/bx
66020045	A6213	10/bx

### ALLEVYN® Ag Non-Adhesive Dressings

CONTAINS SILVER

Offer the convenience of optimal fluid management plus antibacterial protection in a single, easy-to-use dressing. Ideal for exuding wounds that are infected or at risk of becoming infected with sealed and shaped edges to prevent leakage and maceration. Seven-day antibacterial activity and wear time. Bacteria-proof and waterproof top film. 2" x 2".

ITEM #	HCPCS	SOLD BY
66020977	A6209	10/bx

### ALLEVYN® Non-Adhesive Hydrocellular Foam Dressings

Have a trilaminate structure comprising a nonadherent wound contact layer. Highly absorbent central layer; waterproof outer layer prevents bacterial contamination. This structure helps produce a moist wound environment for wounds that have traditionally proven difficult because the exudate is hard to manage. Usually can be left in place for up to four days.

ITEM #	HCPCS	SOLD BY
66927637	A6209	10/bx
66020093	A6210	10/bx
66927638	A6211	10/bx

### ALLEVYN® Non-Adhesive Tracheostomy Hydrocellular Foam Dressings

Unique structure of the dressing enables it to absorb large amounts of secretions, which may help prevent maceration and maintain the skin condition in the peristomal area. High absorbency requires fewer dressing changes, making the dressing cost-effective, while minimizing patient discomfort.

ITEM #	HCPCS	SOLD BY
66027643	A6209	10/bx
66027640	A6209	10/bx

## BIOSTEP® DRESSINGS

### BIOSTEP® Collagen Matrix Dressings

Unique collagen for use on hard-to-heal wounds or to enhance the rate of wound closure. Deactivate excess protein-degrading enzymes that are barriers to wound closure, while maintaining moisture balance with a secondary dressing. Can be cut to shape or placed in pieces into the wound, and will biodegrade over time. For best results, use on exuding wounds and treat the wound with a bactericidal product such as IODOSORB® or ACTICOAT® for about two weeks before moving to BIOSTEP®.

ITEM #	HCPCS	SOLD BY
66800124	A6021	10/bx
66800125	A6021	10/bx

### BIOSTEP® Ag Collagen Matrix Dressings with Silver

CONTAINS SILVER

Feature all the benefits of BIOSTEP® with the addition of low-dose silver impregnated into the dressing. Not intended for treating infection; instead, they should be used on patients with contaminated or colonized wounds who are at high risk for reinfection.

ITEM #	HCPCS	SOLD BY
66800126	A6021	10/bx
66800122	A6021	10/bx

## EXU-DRY® DRESSINGS

### EXU-DRY® Dressings with Anti-Shear Layer®

Ideal for all wounds, burns or skin ulcers. Nonadherent, highly absorbent, lint-free, nonocclusive, soft and pliable.

## SMITH & NEPHEW (54)

### PRIMAPORE® DRESSINGS

#### PRIMAPORE® Adhesive Nonwoven Wound Dressings

One-step island dressing helps prevent site contamination and avoids the multiple steps of "building" a gauze and tape dressing. Water-resistant, nonwoven polyester dressing helps reduce the potential moisture contamination and "strike-through" effect.

	ITEM #	HCPCS	SOLD BY
2" x 3", peripheral	7133	A6254	100/bx

13 3/4" x 4"	66007140	A6255	20/bx

### PROFORE® DRESSINGS

#### PROFORE® Wound Contact Layers (WCL)

Allow exudate to pass freely to an absorptive dressing or bandage layer, thereby preventing exudate pooling and the possibility of maceration. Nonadherent dressing assists in preventing wound trauma during removal. Contact layer protects the wound from absorbent pad materials, while the natural viscose rayon monofilament does not produce lint or breakdown residues to complicate wound cleansing.

	ITEM #	HCPCS	SOLD BY
5 1/2" x 8"	66000701	A6207	50/bx

#### PROFORE® Four-Layer Bandaging System

Comprise a wound contact layer and four bandages; specifically designed for the management of venous leg ulcers. Designed to maintain effective levels of compression after application. The system may be left in place for up to one week.

	ITEM #	HCPCS	SOLD BY
	66020016	A4649	ea

#### PROFORE® LF Multi-Layer Compression Bandaging System

Provides the same compression and results as the standard PROFORE® Multi-Layer Compression Bandaging System, only with latex-free formulation for use on allergy-sensitive patients. Best used on ankle circumferences greater than 18 cm or 7 1/4" (padded). Designed for managing venous leg ulcers and associated conditions.

	ITEM #	HCPCS	SOLD BY
	66020626	A4649	ea

#### PROFORE® Lite

Multilayer compression bandaging system comprising a wound contact layer and three bandages, offering reduced compression from the original PROFORE® LF Multi-Layer Compression Bandaging System. Developed for the management of "mixed" etiology leg ulcers where

assessment has identified that the patient has some degree of arterial impairment that prevents the use of full compression. Designed to maintain effective levels of compression after application. System may be left in place for up to one week. Should not be used on patients with an ankle brachial pressure index of less than 0.6 or on diabetic patients with advanced small vessel disease.

	ITEM #	HCPCS	SOLD BY
	66000771	A4649	ea

## SCAR THERAPY DRESSINGS

### CICA-CARE® Adhesive Silicone Gel Sheet

Flexible, adhesive, semi-occlusive silicone sheet indicated for the management of hypertrophic and keloid scars. Combines the benefits of silicone gel sheets utilized in scar therapy with the advantages of self-adhesiveness and durability, which results in improved patient compliance. A single piece of CICA-CARE® can be washed and reused for up to four weeks.

	ITEM #	HCPCS	SOLD BY

## HYDROCOLLOID DRESSINGS

### 3M™ Tegaderm™ Hydrocolloid Dressings

Maintain an optimal moist wound environment, which has been shown to enhance healing. Significantly higher absorbency than leading hydrocolloid at 48 hours. Breathable outer film layer provides consistently high rate of moisture vapor transmission. Water-resistant film border adheres firmly. Outer film barrier protects wound and surrounding skin from contaminants, body fluids, bacteria and viruses.

	ITEM #	HCPCS	SOLD BY

## 3M HEALTH CARE (88)

All 3M Health Care wound care products are latex-free unless otherwise noted.

**LATEX FREE**

### 3M™ Tegaderm™ High Performance Foam Adhesive Dressings

Help meet the challenges for low- to highly exuding wounds. Superior fluid handling reduces the risk of desiccation and maceration. Watertight seal provides a waterproof liquid, bacterial and viral barrier. Longer wear times reduce disruption to users' daily lives. Patented spoke delivery system for easy, one-handed application.

	ITEM #	HCPCS	SOLD BY
2 3/4" x 3", mini oval (1 1/4" x 1 1/2" foam pad size)	90614	A6212	10/bx
3 1/2" x 3 1/2", square (2" x 2" foam pad size)	90610	A6212	10/bx

### TRANSPARENT THIN FILM DRESSINGS

#### 3M™ Tegaderm™ Mini Wrap Foam Adhesive Dressings

Constructed of a conformable, absorbent, polyurethane foam pad with a highly breathable, nonwaterproof film backing reinforced with soft cloth tape.

	ITEM #	HCPCS	SOLD BY
2 3/4" x 2 3/4" (1" x 1" foam pad size)	90615	A6212	10/bx

#### 3M™ Tegaderm™ High Performance Foam Adhesive Dressings – Heel/Elbow Design

Help meet the challenges for low- to highly exuding wounds. Superior fluid handling reduces the risk of desiccation and maceration. Watertight seal provides a waterproof liquid, bacterial and viral barrier. Longer wear times reduce disruption to patients' daily lives. Patented spoke delivery system for easy, one-handed application.

	ITEM #	HCPCS	SOLD BY
5 1/2" x 5 1/2"	90619	A6212	5/bx

### ADVANCED WOUND DRESSINGS

#### 3M™ Tegaderm™ Absorbent Clear Acrylic Dressings

Transparent plus absorbent for optimal clinical performance and wear time. Easy monitoring of the wound, exudate and periwound skin. May eliminate unnecessary dressing changes. Eliminates hydrocolloid-related odor. No dressing breakdown in the wound. Barrier to external contaminants, body fluids, bacteria and viruses.

	ITEM #	HCPCS	SOLD BY
3" x 3 3/4", oval	90800	A6203	5/bx
4 1/8" x 5", oval	90801	A6203	5/bx

7 1/8" x 11 1/4", square (6 1/4" x 10 3/8" Superabsorber size)	90704	A6198	10/bx

## SKIN CLOSURES

### 3M™ Steri-Strip™ Antimicrobial Skin Closures

Made of a porous, nonwoven backing coated with a pressure-sensitive adhesive that contains iodophor and is reinforced with polyester filaments for added strength. Provide general wound support for increased tensile strength and finer wound edge approximation. five strips/envelope.

	ITEM #	HCPCS	SOLD BY
1/8" x 3"	A1840	A4649	50/bx
1/2" x 4"	A1847	A4649	50/bx

### 3M™ Steri-Strip™ Reinforced Adhesive Skin Closures

The standard for wound closure and wound support. Nonwoven, rayon-based material reinforced with filaments for strength. Microporous material is breathable. Hypoallergenic adhesive. Provide wound support and assist in increasing the tensile strength of the wound. Provide better cosmetic outcome than sutures or staples. Allow finer wound edge approximation. Reduce the risk of infection.

	ITEM #	HCPCS	SOLD BY
1/8" x 3", 5 strips/envelope	R1540	A4649	50/bx
1/4" x 4", 10 strips/envelope	R1546	A4649	50/bx

## COMPRESSION SYSTEMS

### 3M™ Coban™ 2 Layer Compression System

Engineered with Intelligent Compression Dynamics to stay in place and deliver comfortable, effective therapeutic compression. Innovative materials enable the system to be used for all patient types, sizes, shapes and lifestyles. Designed to be applied at full stretch, reducing application variability for consistent, reliable compression every time. Provides sustained compression for up to seven days. Thin, lightweight design allows patients to wear normal footwear. May be used for patients with an ABPI  $\geq 0.8$ . Contains two rolls per box (one of each layer): roll no. 1 (comfort layer), 4" x 2.9 yds.; roll no. 2 (compression layer), 4" x 5.1 yds., stretched and 4" x 3.8 yds., unstretched.

	ITEM #	HCPCS	SOLD BY
Comfort layer	2094	A6441	8/cs
Compression layer	2094	A6452	8/cs

### 3M™ Coban™ 2 Layer Lite Compression System

All the features of 3M™ Coban™ 2 Layer Compression System (Item # 2094) but is designed for patients less tolerant of compression, including patients with an ABPI of  $\geq 0.5$ . Contains two rolls per box (one of each layer): roll no. 1 (comfort layer), 4" x 2.9 yds.; roll no. 2 (compression layer), 4" x 5.1 yds., stretched and 4" x 3.5 yds., unstretched.

### ODOR-ABSORBENT DRESSINGS

#### Restore® Odor-Absorbent

Sterile, foam matrix dressing covered with nonwoven fabric for malodorous wounds resulting from necrosis, infection or bacterial contamination. Activated carbon helps to neutralize offensive odors. For use as a primary or secondary dressing.

	ITEM #	HCPCS	SOLD BY
4" x 4"	519904	A6209	10/bx
6" x 10"	519906	A6211	10/bx

### HYDROCOLLOID DRESSINGS

#### Restore® Extra Thin Hydrocolloid

Thinner, semi-occlusive dressings with flexible backing that maintain a moist wound environment. Manage minimal exudate in shallow wounds and protect skin from friction injury. Include disposable wound measuring guide.

	ITEM #	HCPCS	SOLD BY
4" x 4"	519921	A6234	5/bx
6" x 8"	519923	A6235	3/bx
8" x 8"	519925	A6236	3/bx

#### Restore® Hydrocolloid with Foam Backing, Sterile

Semi-occlusive dressings with white foam backing for low friction areas with moderate exudate.

	ITEM #	HCPCS	SOLD BY
4" x 4"	519930	A6234	5/bx
6" x 8"	519932	A6235	3/bx
8" x 8"	519935	A6236	3/bx

#### Restore® Hydrocolloid

Sterile, conformable, semi-occlusive dressings with flexible outer layer. Maintain a moist wound environment. Manage minimal to moderate exudate in partial- and full-thickness wounds, and are available with or without tapered edges, and in specialty shapes. Include disposable wound measuring guide.

### CALCIUM ALGINATE DRESSINGS

#### Restore® Calcium Alginate

Highly absorbent. Made from calcium sodium alginate, creating conformable protective gel when in contact with exudate. Form moist wound interface. Remain intact when saturated, so it is removed in one piece.

	ITEM #	HCPCS	SOLD BY
2" x 2"	529938	A6196	10/bx
4" x 4"	529937	A6196	10/bx
4" x 8"	529939	A6197	5/bx
12" ropes	529940	A6199	5/bx

#### Restore® Calcium Alginate with Silver

**CONTAINS SILVER**

Sterile dressings release silver ions in presence of wound fluid and are an effective antimicrobial agent against a broad spectrum of microorganisms. Indicated for moderately to heavily exuding, partial- to full-thickness wounds. Assist in maintaining a moist environment and allow intact removal.

	ITEM #	HCPCS	SOLD BY
2" x 2"	529967	A6196	10/bx
4" x 4.75"	529968	A6197	10/bx
12" ropes	529969	A6199	5/bx

### HYDROGEL DRESSINGS

#### Restore® Hydrogel

Help maintain a moist healing environment in partial- to full-thickness wounds. Clear, viscous gel provides up to 72 hours of wear time.

	ITEM #	HCPCS	SOLD BY
3-oz. tube (nonsterile)	529974	A6248	ea
2" x 3.5 yds. impregnated gauze strip (sterile)	529973	A6266	ea
4" x 4" impregnated gauze sponges (sterile)	529972	A6231	15/bx

### FOAM DRESSINGS

#### Hydrofera Blue Ready Foam

**NEW**

Antibacterial properties to help prevent infection. No hydration required prior to application. No secondary dressing required. Up to seven-day wear time.

	ITEM #	HCPCS	SOLD BY
2.5" x 2.5"	HBRS2520	A6209	10/bx
4" x 5"	HBRS24520	A6210	10/bx

	HBT0906	A6215	10 pairs/bx

## RESTORE® WITH TRIACT® TECHNOLOGY

TRIACT® Technology is an innovative formulation in select Restore® wound dressings. The unique composition of TRIACT® Technology provides a superior environment for moist healing of chronic wounds, significantly reduces pain at dressing changes and promotes easy dressing application and removal.

### Restore® Contact Layer with TRIACT® Technology

Nonadherent, nonadhesive, nonocclusive wound contact dressing that is indicated for lightly to moderately exuding, partial- and full-thickness wounds. Ideal for use on wounds with fragile surrounding skin. Apply directly to wound and cover with a secondary dressing. Sterile.

	ITEM #	HCPCS	SOLD BY
8" x 12"	509379	A6208	10/bx

### Restore® Contact Layer FLEX with TRIACT® Technology

A more flexible and conformable version of the original Restore® Contact Layer. Nonadherent for virtually pain-free dressing removal. Indicated for lightly to moderately exuding, partial- to full-thickness wounds. Indicated for use in conjunction with negative pressure wound therapy.

	ITEM #	HCPCS	SOLD BY
2" x 2"	506487	A6206	10/bx
4" x 5"	506488	A6207	10/bx
6" x 8"	506489	A6207	10/bx

### Restore® Contact Layer Silver with TRIACT® Technology

Sterile, nonadherent, nonadhesive, nonocclusive, antimicrobial wound contact dressing may help to reduce infection in lightly to moderately exuding, partial- to full-thickness wounds. Shown to be effective against bacteria most frequently associated with wound infections.

	ITEM #	HCPCS	SOLD BY
4" x 5"	509341	A6207	10/bx
6" x 8"	509342	A6207	10/bx

### Restore® TRIO Absorbent with TRIACT® Technology

All-in-one absorbent dressing with adhesive border that incorporates TRIACT® nonadherent layer. Flexible, comfortable and conformable for versatile use. Indicated for lightly exuding acute and chronic wounds, including dermabrasions and minor cuts and burns. Apply directly to the wound and no need for a secondary dressing. Sterile.

	ITEM #	HCPCS	SOLD BY
3" x 3" (2" x 2" pad)	509372	A6237	10/bx
4" x 5" (2" x 3" pad)	509373	A6237	10/bx
6" x 8" (3.5" x 6" pad)	509374	A6238	10/bx

### Restore® Foam without Border with TRIACT® Technology

Nonadhesive, absorbent dressing with nonadherent layer. Manage moderate to moderately heavily exuding acute and chronic wounds. Sterile.

	ITEM #	HCPCS	SOLD BY
2.5" x 2.5"	509380	A6209	10/bx
4" x 4"	509381	A6209	10/bx
4.7" x 7.5", heel	509384	A6210	10/bx
6" x 6"	509382	A6210	10/bx

### Restore® Foam Border with TRIACT® Technology

Absorbent dressing with adhesive border with nonadherent layer. Manage moderately to moderately heavily exuding acute and chronic wounds. Sterile.

	ITEM #	HCPCS	SOLD BY
4" x 4" (2" x 2" pad)	509387	A6212	10/bx
6" x 6" (4" x 4" pad)	509388	A6212	10/bx
6" x 8" (3.3" x 5.8" pad)	509389	A6213	10/bx
8" x 8" (5" x 5" pad)	509390	A6213	10/bx

### Restore® LITE Foam without Border with TRIACT® Technology

Nonadhesive, absorbent dressing with nonadherent layer is thinner than the standard foam dressings. Manage lightly to moderately exuding acute and chronic wounds. Sterile.

	ITEM #	HCPCS	SOLD BY
2.5" x 2.5"	509393	A6209	10/bx
4" x 5"	509394	A6210	10/bx
6" x 6"	509395	A6210	10/bx
6" x 8"	509396	A6210	10/bx

## SKIN CARE PRODUCTS

### Restore® Skin Cleanser

For use on intact skin. Cleanses peristomal and perineal skin of urinary and fecal discharge. Gentle and nonirritating. Must be rinsed off the skin.

	ITEM #	HCPCS	SOLD BY
8-oz. pump bottle	517210	A9270	ea

### Restore® Wound Cleanser

Spray helps remove particulate matter and other debris from wound bed. No-rinse alternative to saline and harsh antiseptic cleansers.

	ITEM #	HCPCS	SOLD BY
8-oz. spray bottle	529975	A6260	ea
12-oz. spray bottle	529976	A6260	ea

### Restore® Skin Conditioning Creme

Moisturizes and soothes dry, flaky skin. Can also be used to condition skin under adhesive products.

	ITEM #	HCPCS	SOLD BY
4-oz. bottle	517220	A6250	ea

### Restore® Cleanser & Moisturizer

All-in-one spray cleans, moisturizes and protects skin. An effective skin protectant for urinary and/or fecal incontinence. Protective, breathable barrier for skin. Dimethicone-based and does not require rinsing.

	ITEM #	HCPCS	SOLD BY
7.5-oz. spray bottle	529977	A6250	ea
11.5-oz. spray bottle	529978	A6250	ea

### Restore® DimethiCreme Skin Protectant

Dimethicone-based, protective, breathable barrier for skin or mucous membrane surfaces that are, or may be, exposed to harmful stimuli. Effectively moisturizes and protects skin. Dries clear to easily assess skin condition.

	ITEM #	HCPCS	SOLD BY
4-oz. tube	529979	A6250	ea

## COVIDIEN (68)

All Covidien wound care products are latex-free unless otherwise noted. **LATEX FREE**

### FOAM DRESSINGS

#### Kendall™ Gentle Adhesion Border Foam Dressings

The comfort and superior absorbency of Kendall™ Foam is now available with a silicone adhesive that remains adherent after lifting or adjusting the dressing, while minimizing skin trauma. The high MVTR (moisture vapor transmission rate), low friction topsheet provides a waterproof microbial barrier, and reduces friction and shear.

The highly absorbent foam has a small pore size to prevent microbe and cell ingrowth, while providing a soft feel that helps promote comfort and relieve pressure.

	ITEM #	HCPCS	SOLD BY
1.75" x 3.25" (1" x 1.75" pad)	55523BG	A6209	10/bx
3.5" x 3.5" (2" x 2" pad)	55544BG	A6212	10/bx
3.5" x 5.5" (2" x 4" pad)	55546BG	A6212	10/bx
5.5" x 5.5" (4" x 4" pad)	55566BG	A6212	10/bx
7.5" x 7.5" (6" x 6" pad)	55588BG	A6213	10/bx

#### Kendall™ Ultra-Soft Foam Dressings

An ultra-soft, hydrophilic foam that protects and cushions wounds. Small pores decrease the chance of tissue migration into the foam dressing.

	ITEM #	HCPCS	SOLD BY
2" x 2"	55522	A6209	25/bx
3.5" x 3", fenestrated	55535	A6209	10/bx
4" x 4"	55544	A6209	10/bx

4" x 8"	9257	A6232	25/bx

## ANTIMICROBIAL DRESSINGS

### Kendall™ AMD Antimicrobial Foam Dressings

Developed to help manage both moisture and bacterial balance. Open-cell, polyurethane foam dressing is impregnated with 0.5% PHMB (polyhexamethylene biguanide), a highly effective, low-toxicity antiseptic. Effective against gram-positive and gram-negative bacteria, and also work against fungi and yeast. AMD Bordered dressings also prevent complications, such as friction and shear injuries.

## COLOPLAST (62)

All Coloplast wound care products are latex-free unless otherwise noted.

**LATEX FREE**

## WOUND CLEANSER

### Sea-Cleans® No-Rinse Wound Cleanser

Nonionic solution delivers the benefits of pure saline. Adjustable with stream or spray delivery system. Assists in softening slough and eschar to facilitate debridement. Nonirritating to intact or damaged skin, or mucosa.

	ITEM #	HCPCS	SOLD BY
6-oz. spray bottle	1063	A6260	ea
12-oz. spray bottle	1061	A6260	ea

## HYDROGELS

### Woun'Dres® Collagen Hydrogel

Unique gel formulation offers superior performance in maintaining a moist wound healing environment by protecting new granulation tissue, absorbing exudate, rehydrating, debriding and removing slough. Aids in eliminating the accumulated slough or dead tissue from the wound by presenting a clean wound bed conducive to tissue regeneration. Eliminates the pain and discomfort of debriding by providing a natural debridement process. Promotes natural autolysis by rehydrating and softening necrotic tissue and eschar. Absorbs excess exudate and drainage.

	ITEM #	HCPCS	SOLD BY
1-oz. tube	1166	A6248	ea
3-oz. tube	7690	A6248	ea

### Purilon® Gel

State-of-the-art hydrogel designed with high viscosity maintains the optimal moist environment essential for autolytic debriding. Natural and sterile ingredients combine superior hydration with essential absorptive action.

1" x 17½" Rope (44 cm)	3740	A6199	6/bx

## HYDROCOLLOIDS

### Comfeel® Plus Ulcer Dressings

Sterile, highly absorbent hydrocolloid with alginate for superior exudate management. Adaptable polyurethane top film contributes to better exudate management, allowing pores to open for more evaporation when there is heavy exudate, and close to maintain a moist environment when there is little exudate. "No touch" system allows for easy application while wearing gloves. Skin-friendly adhesive keeps the dressing in place, yet it can easily be removed.

# WOUND CARE

## COLOPLAST (62)

All Coloplast wound care products are latex-free unless otherwise noted.

**LATEX FREE**

### Comfeel® Plus Sacral Dressings

Triangular shape and sterile flexibility with anatomical design is specifically for the difficult-to-dress sacral area.

	ITEM #	HCPCS	SOLD BY
7" x 8" (18 cm x 20 cm)	3285	A6235	5/bx

### Comfeel® Plus Contour Dressings

Butterfly shape and hydrocolloid edging eliminate the need for additional taping, even in areas such as the sacrum, heel and elbow. Thin, transparent hydrocolloid edging promotes a healing environment for damaged skin surrounding the ulcer. Washable surface minimizes the need for premature changes due to soiling. Unique, adaptable top film knows when to open and close its pores to allow excess moisture to evaporate, while maintaining the proper moist environment. "No-touch" system allows easy application while wearing gloves.

	ITEM #	HCPCS	SOLD BY
24" square (6 cm x 8 cm)	3280	A6235	5/bx
42" square (9 cm x 11 cm)	3283	A6235	5/bx

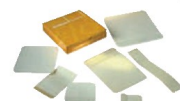

### Comfeel® Plus Pressure Relief Dressings

High-density, independently scored foam backing redistributes pressure, which enhances local circulation. Adhesive outer border keeps dressing in place, even over bony prominences. Residue-free removal helps prevent irritation. Adaptable polyurethane top film knows when to open and close its pores to allow excess moisture to evaporate, while maintaining the proper moist environment. "No-touch" system allows easy application while wearing gloves.

	ITEM #	HCPCS	SOLD BY
3" (7 cm) butterfly	3350	A6237	5/bx
4" (10 cm) round	3353	A6237	5/bx
6" (15 cm) round	3356	A6238	5/bx

### Comfeel® Plus Transparent Dressings

Combine the benefits of a sterile, see-through hydrocolloid dressing with superior exudate management. Breakthrough in hydrocolloid technology produces unsurpassed absorptive capacity that helps manage low-exudate wounds.

	ITEM #	HCPCS	SOLD BY
2" x 2 3/4" (5 cm x 7 cm)	3530	A6234	10/bx
3 1/2" x 5 1/2" (9 cm x 14 cm)	3536	A6235	10/bx
4" x 4" (10 cm x 10 cm)	3533	A6234	10/bx
6" x 6" (15 cm x 15 cm)	3539	A6235	5/bx

### Comfeel® Ulcer Care Dressings

Hydrocolloid dressing absorbs exudate. Balanced adhesive formula. The original Comfeel® hydrocolloid promotes moist wound healing, absorbs exudate and allows natural debridement. "No-touch" system allows one-handed application, even with gloves. Microthin edges reduce the need for taping and lessen the chance of edge roll. Soft and flexible; conform easily to body contours. Remove easily, are residue-free and prevent irritation of sensitive skin surrounding partial-thickness wounds.

	ITEM #	HCPCS	SOLD BY
1 1/2" x 2 1/2" (4 cm x 6 cm)	3233	A6234	30/bx
4" x 4" (10 cm x 10 cm)	3213	A6234	10/bx
6" x 6" (15 cm x 15 cm)	3218	A6235	5/bx

### Triad™ Hydrophilic Dressings

Zinc oxide-based hydrophilic paste gently adheres to moist wound beds and protects periwound skin. Autolytic action loosens dried eschar to aid in its removal process. Soothe compromised periwound skin and provide an occlusive wound dressing. Maintain a moist healing environment.

	ITEM #	HCPCS	SOLD BY
2.5-oz. tube	1964	A6240	ea
6-oz. tube	1967	A6240	ea

## ANTIMICROBIAL DRESSINGS WITH SILVER

### Biatain® Silicone Ag Foam Dressings

**CONTAINS SILVER**

Unique 3D foam that conforms to the wound bed for superior absorption and continuous release of silver to the wound. Sustained release of silver during entire wear time (up to seven days). Silicone adhesive for easy removal.

	ITEM #	HCPCS	SOLD BY
<b>SILICONE ADHESIVE BORDER</b>			
3" x 3" (7.5 cm x 7.5 cm)	39636	A6212	5/bx
4" x 4" (10 cm x 10 cm)	39637	A6212	5/bx
5" x 5" (12.5 cm x 12.5 cm)	39638	A6212	5/bx

### Biatain® Ag Heel Foam Dressings

**CONTAINS SILVER**

Combines effective antimicrobial technology with effective exudate management. Unique foam structure manages wound exudate and protects the heel. Hydrocolloid border for optimal adhesion.

	ITEM #	HCPCS	SOLD BY
7 1/2" x 7 3/4" (19 cm x 20 cm)	9643	A6212	5/bx

### Biatain® Ag Foam Dressings

**CONTAINS SILVER**

Sterile, foam dressing combines silver technology with moist wound healing to effectively prepare problem wounds for healing.

	ITEM #	HCPCS	SOLD BY
<b>NONADHESIVE</b>			
4" x 4" (10 cm x 10 cm)	9622	A6209	5/bx
6" x 6" (15 cm x 15 cm)	9625	A6210	5/bx
<b>ADHESIVE</b>			
5" x 5" (12 cm x 12 cm)	9632	A6212	5/bx
7" x 7" (18 cm x 18 cm)	9635	A6213	5/bx
9" x 9" (sacral)	9641	A6213	5/bx

### Biatain® Alginate Ag Dressings

**CONTAINS SILVER**

Unique mix of calcium alginate and highly absorbent CMC (carboxymethyl cellulose) with the addition of an ionic silver complex that releases silver ions in the presence of wound exudate. As exudate is absorbed, dressing forms a soft, cohesive gel that conforms to wound surface. Silver ions protect dressing from a broad spectrum of microorganisms over a period of up to

four days. Can be removed in one piece. Indicated for the management of pressure, leg and diabetic ulcers; second-degree burns; grafts; donor sites; and trauma and cavity wounds.

	ITEM #	HCPCS	SOLD BY
2" x 2" (5 cm x 5 cm)	3755	A6196	30/bx
4" x 4" (10 cm x 10 cm)	3760	A6196	10/bx

1" x 17 1/2" rope (44 cm)	3780	A6199	10/bx

## SUPER ABSORBENT

### Biatain® Super Hydrocapillary Dressing

**NEW**

A highly-absorbent hydrocapillary dressing available in both an adhesive and a non-adhesive version. Suitable for highly exuding wounds and promotes an optimal moist wound healing environment.

	ITEM #	HCPCS	SOLD BY
<b>NON-ADHESIVE</b>

## COLOPLAST (62)

All Coloplast wound care products are latex-free unless otherwise noted.

**LATEX FREE**

## CONTACT LAYER

### Physiotulle® Wound Contact Layer

**NEW**

Hydrocolloid-based, non-adherent wound contact layer for atraumatic dressing removals. Easy-to-handle and easy-to-use. Promotes a moist wound healing environment.

	ITEM #	HCPCS	SOLD BY
4" x 4"	3910	A6206	10/bx
4" x 8"	3912	A6207	3/bx
6" x 6"	3920	A6207	10/bx
6" x 8"	3915	A6207	10/bx

## DERMA SCIENCES (DE/DS/GL/KK)

### MEDIHONEY® DRESSINGS

A complete line of dressings with *Leptospermum* Honey. Provide a moist wound environment conducive to wound healing, have a low pH and high osmolarity, which helps promote autolytic debridement. Indications include diabetic foot ulcers; leg ulcers (venous stasis ulcers, arterial ulcers and leg ulcers of mixed etiology); pressure ulcers and sores (both partial- and full-thickness); first- and second-degree, partial-thickness burns; donor sites; and traumatic and surgical wounds.

### MEDIHONEY® Gel

**LATEX FREE**

Patented formulation with 80% Active *Leptospermum* Honey and 20% natural gelling agents. This thicker, more viscous product provides greater stability at the wound site, even in the presence of wound fluid and body heat.

	ITEM #	HCPCS	SOLD BY
0.5-oz. tube	(DS)31805	A6240	ea
1.5-oz. tube	(DS)31815	A6240	ea

### MEDIHONEY® Calcium Alginate Dressings

**LATEX FREE**

Patented formulation with 95% Active *Leptospermum* Honey impregnated in the calcium alginate dressing. As wound fluid enters the dressing, honey is released, while the dressing forms a gel, making the dressing easy to remove without disrupting the wound bed. Used in the same fashion as a typical calcium alginate dressing or other gel fiber dressing. Indicated for moderate to heavily exuding wounds.

	ITEM #	HCPCS	SOLD BY
¾" x 12" ropes	(DS)31012	A6199	5/bx
2" x 2"	(DS)31022	A6196	10/bx
4" x 5"	(DS)31045	A6197	10/bx

### MEDIHONEY® Honeycolloid™ Dressings

**LATEX FREE**

Patented formulation with 80% Active *Leptospermum* Honey. Promotes an optimal wound-healing environment. The adhesive version is occlusive like a traditional hydrocolloid, with a thin film backing and adhesive border. The non-adhesive version is non-occlusive and requires a secondary dressing to hold in place. Indicated for lightly to moderately exuding wounds.

	ITEM #	HCPCS	SOLD BY
<b>NONADHESIVE BORDER</b>			
2" x 2"	(DS)31222	A6234	10/bx
4" x 5"	(DS)31245	A6235	10/bx
<b>ADHESIVE BORDER</b>			
2" x 2" (3.5" x 3.5" with adhesive border)	(DS)31422	A6237	10/bx
4.5" x 4.5" (6" x 6" with adhesive border)	(DS)31445	A6238	10/bx

### MEDIHONEY® Paste

**LATEX FREE**

With 100% Active *Leptospermum* Honey to promote an optimal wound-healing environment. Effective on wounds that have not progressed with conventional treatment. For use in hard-to-dress areas, including tunneled or undermined wounds, or sinus tracts.

	ITEM #	HCPCS	SOLD BY
0.5-oz. tube	(DS)31505	N/A	10/bx
1.5-oz. tube	(DS)31515	N/A	ea
3.5-oz. tube	(DS)31535	N/A	ea

### MEDIHONEY® HCS

**LATEX FREE**

Patented formulation with 63% *Leptospermum* Honey combined with a hydrogel colloid gelling agent. As wound exudate is absorbed, the dressing forms a gel, which allows for non-traumatic removal. The dressing provides a cooling and soothing, hydrogel-like feel. Indicated for dry to moderately exuding wounds.

	ITEM #	HCPCS	SOLD BY
2.4" x 2.4"	(DS)31622	A6234	10/bx
4.33" x 4.33"	(DS)31644	A6235	10/bx

4.5" x 4.5" (6" x 6" with adhesive border)	(DS)31744	A6238	10/bx

## WOUND MANAGEMENT PRODUCTS WITH ZINC-NUTRIENT TECHNOLOGY

### DERMAGRAN® Hydrophilic Gauze Dressings

Contain zinc, and vitamins A and B<sub>6</sub>, which play an important role in tissue repair. Encourage autolytic debridement and provide a mildly acidic environment for supporting epidermal growth. Also provide moisture and protection.

	ITEM #	HCPCS	SOLD BY
2" x 2"	(DS)SPD20	A6231	25/bx
4" x 4"	(DS)SPD21	A6231	15/bx
8" x 4"	(DS)SPD24	A6232	15/bx

### DERMAGRAN® B Hydrophilic Wound Filler

Impregnated filler tube contains Derma Sciences' zinc-nutrient formulation and pH-balanced technology. Provides a moist, mildly acidic environment conducive to wound healing. Contains nutrients such as zinc, and vitamins A and B<sub>6</sub>, which play an important role in tissue repair. For use with pressure sores, tissue trauma, surgical incisions, partial-thickness thermal burns, and diabetic and venous stasis ulcers.

	ITEM #	HCPCS	SOLD BY
3-oz. tube	(DS)SPD03	A6261	ea

### DERMAGRAN® Ointment and Moisturizing Spray

Provide a slightly acidic environment, which is important for epidermal growth. Contain nutrients, such as zinc and vitamin B<sub>6</sub>, that play an important role in tissue repair. Provide protection and moisture to wound bed.

	ITEM #	HCPCS	SOLD BY
<b>OINTMENT</b>

### DERMAGRAN® Hydrogel Zinc Saline Wound Dressing

Contains nutrients, such as zinc and vitamin B<sub>6</sub>, that play an important role in tissue repair. Provides a mildly acidic environment for supporting epidermal growth. Also provides moisture and protection.

	ITEM #	HCPCS	SOLD BY
3-oz. tube	(DS)DH03	A6248	ea

### DERMAGRAN® Wound Cleanser with Zinc

Remarkably low cytotoxicity. Contains nutrients, such as zinc and vitamin B<sub>6</sub>, that play an important role in tissue repair. Precision delivery system achieves an irrigation pressure for wound management.

	ITEM #	HCPCS	SOLD BY
4-oz. bottle	(DS)WC04	A6260	ea

# WOUND CARE

## DERMA SCIENCES (DE/DS/GL/KK)

### SUPER ABSORBENT DRESSINGS

#### XTRASORB™ Super Absorbent Dressings

LATEX FREE

Based solely on advanced superabsorbent polymers. When fluid is absorbed in dressings, superabsorbent polymer core converts to a gel, locking fluid inside dressing. Help prevent maceration, keeping harmful components within wound fluid away from wound. Can be used under compression. Dressings have a nonadherent wound cover, allowing for easy, pain-free removal. For use on wounds with moderate to heavy amounts of exudate.

	ITEM #	HCPCS	SOLD BY
4" x 5"	(DE)89545	A6252	10/bx
6" x 9"	(DE)89569	A6253	10/bx

### CATIONIC BIOCIDES IMPREGNATED DRESSINGS

#### BIOGUARD® Barrier Dressings

LATEX FREE

Patented line of infection control dressings with strong, broad-spectrum activity against wound pathogens, such as MRSA, VRE and pseudomonas. With greater than 99.99% kill rate, these cationic biocide impregnated dressings (PolyDadmac) – in traditional wound care dressing formats – are designed to help reduce wound infections and cross-contamination during dressing changes.

### CALCIUM ALGINATE DRESSINGS

#### ALGICELL™ Calcium Alginate Dressings

LATEX FREE

Soft, white and sterile dressings absorb moderate to large amounts of wound drainage and may help control minor bleeding. Alginate ropes can be used to fill or pack the dead space in a wound. Secondary dressing is needed to hold alginates in place and to protect the wound from outside contaminants.

	ITEM #	HCPCS	SOLD BY

## SILVER ALGINATE DRESSINGS

### ALGICELL™ Ag Silver Alginate Dressings

CONTAINS SILVER LATEX FREE

Antimicrobial silver alginate dressing that relies on 1.4% ionic silver for a seven-day broad spectrum antimicrobial effectiveness. Optimal gelling profile allows dressing to avoid sticking to the wound bed, but also to keep enough physical integrity to be removed from the wound in one piece.

	ITEM #	HCPCS	SOLD BY

### HYDROGEL DRESSINGS

#### XTRASORB® HCS Dressings

LATEX FREE

Hybrid hydrogel/hydrocolloid dressing. Half water and glycerin for standard hydrogel cooling and soothing application while hydrating dry to lightly exuding wounds. Half sodium CMC and superabsorbent polymer blend for impressive absorption. This "smart dressing" can be used on dry to moderately exuding wounds, cutting down the number of dressings needed. The dressing minimizes lateral wicking, reducing maceration. Wound fluid is locked into the dressing.

	ITEM #	HCPCS	SOLD BY
2.3" x 2.3"	(DE)86322	A6234	10/bx
4.5" x 4.5"	(DE)86344	A6235	10/bx
8" x 8"	(DE)86388	A6236	5/bx
3" x 3" (with adhesive border)	(DE)86433	A6237	10/bx
6" x 6" (with adhesive border)	(DE)86466	A6238	10/bx

### AQUASITE® Amorphous Hydrogel Dressings

Clear gel is used to fill wounds, while keeping them moist and absorbing small to moderate amounts of wound drainage. Hydrogels are known for their soothing, cooling and pain-reducing effects. Secondary dressing is needed to hold it in place and to protect the wound from outside contaminants.

	ITEM #	HCPCS	SOLD BY
1-oz. bellows	(DE)81110	A6248	12/cs

### FOAM DRESSINGS

#### XTRASORB® Foam Dressings

LATEX FREE

Superabsorbent foam dressing. It comprises a standard, highly absorbent, hydrophilic polyurethane foam dressing, with a patented superabsorbent polymer sheet fused to the back side of the foam. This allows for significantly more fluid to be handled by the dressing. Additionally, the fluid is locked within the superabsorbent sheet, keeping it away from the wound and surrounding tissue. This can help to reduce maceration, as well as reduce exposure to the harmful components of wound fluid.

	ITEM #	HCPCS	SOLD BY
2" x 2"	(DE)86122	A6209	10/bx
4" x 4.75"	(DE)86144	A6210	10/bx

6" x 6" (with adhesive border)	(DE)86266	A6213	10/bx

### HYDROCELL® Adhesive Foam Dressings

LATEX FREE

For use with moderately to heavily exuding wounds. Hydrophilic foam sheets can absorb a large amount of fluid and provide a soft, cushioning layer for additional patient comfort. Easy to apply and remove; with minimal trauma both to the patient and the wound bed. Outer film layer provides a barrier to external contaminants.

	ITEM #	HCPCS	SOLD BY
6" x 6"	(DE)84266	A6213	10/bx

# WOUND CARE

## DERMA SCIENCES (DE/DS/GL/KK)

### NON-ADHERING DRESSINGS

#### Shur-Conform® Oil Emulsion Non-Adhering Dressings

LATEX FREE

Sterile, oil emulsion, impregnated dressings are designed to provide nonadherent packing for wounds. Made of knitted cellulose acetate fabric coated with a formulated petroleum emulsion. Knitted fabric allows fluid to move through dressing into a secondary absorbent dressing. Removal causes minimal trauma to wound bed. Used for management of skin grafts, surgical sites, abrasions, lacerations, dermal ulcers and cosmetic surgery sites.

	ITEM #	HCPCS	SOLD BY
3" x 8" (3s)	(KK)77044	A6223	36/bx
3" x 16"	(KK)77043	A6223	36/bx

#### Petrolatum Gauze Non-Adhering Dressings

LATEX FREE

Sterile, petrolatum-impregnated dressings are designed to provide nonadherent packing for full-thickness wounds, providing a moist environment conducive to healing. Made of fine, soft, conformable gauze impregnated with white petroleum. Removal causes minimal trauma to wound. Used for management of full-thickness chronic wounds, such as pressure ulcers (Stages II – IV), tunneling wounds and noninfected wounds.

	ITEM #	HCPCS	SOLD BY
0.5" x 72"	(KK)20049	A6266	12/bx
1" x 36"	(KK)20053	A6266	12/bx

### ISLAND DRESSINGS

#### Dudress® Film Top Island Dressings

LATEX FREE

Sterile dressings combine a nonadherent gauze pad with a transparent film top. Useful for superficial, lightly exuding wounds. Waterproof for showering, bathing or swimming.

	ITEM #	HCPCS	SOLD BY
4" x 4"	(DE)89144	A6203	25/bx
6" x 6"	(DE)89166	A6203	25/bx
6" x 8"	(DE)89168	A6204	25/bx

### GAUZE DRESSINGS & SPONGES

#### Ducare® Gauze Sponges

LATEX FREE

Woven sponges made from 100% USP cotton are ideal for general use; or for debriding, covering and packing wounds.

	ITEM #	HCPCS	SOLD BY
<b>8-PLY, NONSTERILE</b>

#### Dusoft® Nonwoven Sponges, Sterile, 2s

LATEX FREE

Nonwoven sponges are ideal for wound cleansing and as a secondary dressing for added absorbency. Four-ply.

	ITEM #	HCPCS	SOLD BY
2" x 2"	(DE)84122	A6402	25/pk
3" x 3"	(DE)84133	A6402	25/pk
8" x 4"	(DE)84148	A6403	25/pk

### TRACHEOSTOMY/DRAIN SPONGES

#### Ducare® Gauze

LATEX FREE

Ideal for dressing around a tracheostomy tube or any type of tube on the body. For use when natural breathability is desired. 12-ply.

	ITEM #	HCPCS	SOLD BY
4" x 4"	(DE)82910	A6402	25/pk

## SORBACELL® Foam

LATEX FREE

Polyurethane sheets absorb a large amount of fluid and provide a soft cushioning layer for additional patient comfort. Easy to apply and remove, with minimal trauma to both the patient and the wound bed. Nonadhesive; ideal for use under compression because it does not have an outer film layer. Sterile.

	ITEM #	HCPCS	SOLD BY
4" x 4"	(DE)84501	A6209	10/bx

### BANDAGES

#### Dutex® Conforming Bandages

LATEX FREE

100% cotton, two-ply woven bandages. Gentle stretch for ease of application and safety. Low lint for superior performance. For use as a secondary dressing for wrapping legs and arms to hold dressings in place.

	ITEM #	HCPCS	SOLD BY

### COMPRESSION PRODUCTS

#### Dufore® Four-Layer Compression Bandaging System

LATEX FREE

Designed to sustain effective levels of graduated compression for up to seven days. Sustained compression has been recognized as the most important factor in managing venous leg ulcers. Comprised of four layers: the first layer, a padding absorption layer, provides padding for bony prominences, distributes compression evenly over the leg and absorbs exudate; the second layer provides short-stretch compression by resisting expansion of the calf muscle during limb movement, and works with the third and fourth layer elastic compression bandages to effectively minimize edema and increase venous return. Wound contact dressing is included with the system to help maintain a moist wound healing environment and to protect the wound from lint or outside contaminants.

	ITEM #	HCPCS	SOLD BY
	(DE)72414	A4649	ea

#### Duban® Cohesive Elastic Bandages

LATEX FREE

High-quality elastic wrap offers protection and support. Adheres to itself, but never to the skin or hair. Conform to body contours, while offering controlled compression. Lightweight and water resistant.

	ITEM #	HCPCS	SOLD BY
2" x 5 yds.	(DE)73202	A6453	ea
4" x 5 yds.	(DE)73204	A6454	ea

## DERMA SCIENCES (DE/DS/GL/KK)

### Sorban® Padding Bandage

Lightweight cotton bandage offers protection for bony prominences and absorption of wound exudate. Primarily used under other forms of compression bandaging.

## WOUND PROTECTORS

### Heel and Elbow Protectors

Designed to protect against decubitus ulcers and other skin damage common among wheelchair users or those who must remain in bed. Heel and elbow protectors consist of a knitted tube of soft fabric with a tricot-covered urethane foam pad stitched inside.

	ITEM #	HCPCS	SOLD BY
Small (9.5" cuff stretched)	(GL)800	E0191	pr
Medium/Large (11" cuff stretched)	(GL)801	E0191	pr
X-Large (11.75" – 12.25" cuff stretched)	(GL)802	E0191	pr

### Glen-Sleeve® II Arm and Leg Protectors

For protection of fragile skin, rips, tears, lacerations and abrasions. Cover the arm from the base of the fingers to above the elbow, leaving thumb free. Padded to help minimize damage from bumps and scrapes.

Knitted tubular sleeves made of cotton and Lycra® for softness and stretch. Comfortable and soft to the touch; permit snug fit with full freedom of movement. Wicking action removes excess moisture from the skin. All are 18" unstretched.

## SHEEPSKIN RANCH, INC. (SHP)

### Medical Sheepskin

Perfect for year-round use, allows air circulation, keeps patient cool in summer and warm in winter. Absorbs 20 times more moisture than synthetics, yet feels dry. Contains natural lanolin to soothe and aid in healing when in direct contact with the skin. Stays soft, pliable and nonabrasive wash after wash and is naturally fire retardant. Average size is 3' long and 2.5' wide at the widest part. Natural shaped.

ITEM #	HCPCS	SOLD BY
36" x 30"	101	E0189 ea
72" x 30"	105	E0189 ea

### Sheepskin Elbow Protector

Provides ample protection for delicate skin and prevents abrasions from occasional bumps. Sheepskin naturally prevents friction while keeping skin soft with naturally occurring lanolin. Easy on, easy off with Velcro® fasteners. Stays soft wash after wash with little maintenance to last for years.

ITEM #	HCPCS	SOLD BY
102	E0191/E0189	ea

### Sheepskin Heel Protector

Provides protection against "heel burn" caused from friction of heels against bed sheets. Ideal for those who suffer from RLS (restless leg syndrome). Prevents and aids in the healing of heel fissures or "heel cracks" caused by overly dry skin with its natural lanolin. Stays soft with a built-in comfort pad so the feet never come into contact with seams or straps.

ITEM #	HCPCS	SOLD BY
103	E0191/E0189	ea

### Large Medical Sheepskin

Protects delicate skin from skin tears and decubitus ulcerations caused by pressure and moisture buildup (pressure sores). Resilient and springy to even out weight distribution and prevent pressure sores. Absorbs moisture, leaving the skin dry and comfortable. Measures 72" x 32" with elastic straps on the corners to secure to the mattress.

ITEM #	HCPCS	SOLD BY
104	E0189	ea

## MEDI-TECH INTERNATIONAL CORP. (MT)

### COMPRESSION/SUPPORT BANDAGES

#### SpandaGrip™ Tubular Support/Compression Bandage

Delivers consistent support and gentle compression with a single application. Perfect for sprains and strains, joints and muscles, soft-tissue injuries or general edema. An alternative to flat wrap bandages. Additional sizes available. Natural and beige colors.
