

El Mirage – September Meet

Attn: Racers & Spectators

Bill Lattin, the SCTA President went out to El Mirage this morning. There is Bad News & Good News.

Bad News: As of right now, there is still a substantial size puddle of standing water at the East End by the Visitors Center. The stress cracks on the race course that were filled by volunteers still have water in them and have also shrunk so they are low and need more material added. The entire area around the lakebed is still very soft & green and putting weight on it will leave an impression.

The pictures below were taken this morning at the windsock. The water that was on the lakebed had gone all the way out to that point. Due to the conditions of the lakebed and closure until at least late next week, we are sorry to say that the El Mirage September Meet has been Officially Cancelled.

Good News: The flash floods brought well-nourished alkaline from the mountains, which in all the low spots is white and looks similar to salt.

Hope to see you all at World Finals!

Bill Lattin
SCTA President
