

Is your town board writing laws that will allow Trespass Zoning?

How noise trespassing occurs on your property.

50 decibels (dBa) of noise at your property line being emitted from your neighbor's 500 ft. tall industrial wind turbine. Your town may be writing laws allowing this noise trespass to occur on your property at the request of a developer.

Are you currently enjoying a normal 25 decibels (dBa) of noise on your entire property up to the property line without noise being emitted from a neighbor's 500 ft. tall industrial wind turbine or industrial solar farm?
