

PRODUCT DATA SHEETS

SEWER SWEETENER– ODOR CONTROLLER

DESCRIPTION

Sewer Sweetener is formulated to control obnoxious odors found in sewage plants, mains and laterals, wastewater facilities and lagoons. Odors are controlled without using harmful solvents or disrupting natural bacterial action in digesters, septic tanks and drain fields. **Sewer Sweetener** is available in lemon and cherry.

FEATURES

- **WATER BASED FORMULA DOES NOT CONTAIN HARMFUL SOLVENTS**

USE AND DIRECTIONS

Spray, inject or mist undiluted product into feed lines. The amount of product required will vary based on air movement, intensity of the odor and the temperature.
