

Save Money by Saving Energy...

S.P.E.E.D.

(Smart Power Energy Economizer Device)

Energy Saving System

- ◆ Reduce Energy/Facility costs 15-25%!
- ◆ Engineered for use in constant speed applications with varying loads!
- ◆ Dramatically reduce energy consumption during periods of lower torque demand!
- ◆ Exclusive Smart Microprocessor/Algorithm for optimum energy saving!
- ◆ Instantly reacts to increased/decreased loads and demands!

SMART MICROPROCESSOR
The "Brains" behind this revolutionary
new technology

The H.E.L.P. System and S.P.E.E.D. Series Equipment
are powered by Solarimne Energy Solutions.
All SES products carry a Limited Lifetime Warranty.
Visit www.solarimne.com for details.

Specifications:

Input Voltages: 195 VAC to 575 VAC
(Single or 3-Phase Motors)
HP Range: 5-600 HP
UL and CE approved
SGS Certified for Energy Savings

Applications: Constant Speed/Varying Load

- ◆ Compressors (Maintaining pressure)
- ◆ Conveyors (Adjusts to low-load conditions)
- ◆ Escalators and Elevators (Occupant regulated)
- ◆ Winders, Rolls, Mills, etc.
- ◆ Petrochemical (Pumps, Mixers, Agitators,)
- ◆ Manufacturing (Grinders, Saws, Granulators)
- ◆ Mining/quarry Equipment

The S.P.E.E.D. Series is sold exclusively by:
