7) who wants a Honduran cell phone *who didnt email ted* already? Christof purchased inexpensive phones (\$50 includes 100? minutes to USA) for us last year...I'll give Christof a total number with names allowing volunteers to call each other while in country. If you already have a phone you will likely need a replacement chip since the phone hasnt been used in more than 6 months?; I pay verizon an extra \$10 per day and am able to enjoy 100% of services I have at home.

8)Conclusion/Questions..... website: operationhonduras.com thank you Matt Petlock!
