

## **School-age Children**

The before and after school program is offered to children between six and twelve years of age whose school is within walking distance of the Angel's Child Development Center. This includes before and after school in days when their schools are in session and, also, as a full day program on Holidays and other school closings, and during summer vacation.

The full day program is available during the hours and days the Center is open for the Infant, Toddler and Pre-school programs. The School-age Program includes: snacks and lunch (the latter, in full days of attendance), help and time for homework assignments and reading, and educational and fun group activities as well as time for individual free play.

During school days the participating children are taken to school in the mornings and picked up from school in the afternoons by teachers and/or staff from the Center.
