An award winning series of stacking side and lounge chairs by Don Chadwick, Spark brings people together to spark conversation, ideas and imagination. The series includes a four-leg side chair and a sled-base lounge chair, both of which stack 6-high on the floor and 10-high on the Spark dolly.

Spark Series

Knoll

Light. Sturdy. Colorful.

The Spark Series of stacking side and lounge chairs brings a spark of energy to every space with its bright colors and unique personality. A perfect balance of design and innovation, the chairs are pleasing to the eye, comfortable and efficient for general purpose use, stacking and storage.

Designed by Don Chadwick.

An optional upholstered seat pad adds comfort, texture and pattern. Seat pad, shown above from left to right, in Knoll Hopsack, Celery; Knoll Hopsack, Navy; Knoll Felt, Poppy; and Ricochet, Oyster. On the cover, seat pad shown in Chroma, Iris, and Knoll Felt, Poppy.

Knoll Office Seating

Designed for Performance

- Made using an innovative co-injection molding process that delivers light, sturdy and easy-to-clean chairs for corporate, healthcare, education, retail and restaurant environments
- Waterproof, UV-protected, reinforced polypropylene approved for indoor and outdoor use (non-upholstered)
- Side and lounge chairs stack 6-high on the floor and 10-high on the Spark dolly, whether non-upholstered or with the optional seat pad
- Wall-saver design, integral glides and stacking spacers protect finishes
- Side and lounge chairs in Recycled Black use up to 40% recycled content
- GREENGUARD Indoor Air Quality Certified®

With its lower, wider and deeper seat, the lounge chair, shown at top with a Dividends Horizon™ Low X Base table, is intended for collaborative use, such as in communal spaces and activity areas.

The Spark dolly, far left, stores and transports side or lounge chairs. It features handles that act as bumpers to cushion the chairs and four locking casters for secure storage.

The translucent ganging device, left, connects Spark side chairs in a row for use in auditoriums and multifunction spaces.

The side chair contours are comfortable for upright, attentive postures, such as those in guest, conference, training and café applications.
