

The INTELLITREND KARATBARS REBUTTALS....

I Need to talk to my spouse

No problem, I can certainly appreciate that.. This is a life changing moment for sure. I'm glad that you see the value in what we do. Now lets get your Wife/Husband on the phone. I will be more than happy to answer any questions he/she might have. Is he/she available now?

Skeptical

I can appreciate that. So was I when I first saw this. But man am I glad I took the time to learn more. Look... I'm not here to try convince you to do something you don't want to do. All I can do is show you this opportunity that can possibly change your life over the course of just a few months. But before I let you go... Tell me what do like best about what we do?

I don't want to pay anything to go to work

I can appreciate that.. Many of my team members felt the same way... That's what great about this. You don't have to. There is no requirement to spend any money here if you don't want to. But what's great about this is We do have an upgrade option that at least triples your income for the same amount of work but that is totally optional.

But let me tell you something regardless if I may.... People of all professions pay something before they can go to work including yourself probably and you may not even realize it. In fact, many people have costs to pay before they can start to go to work....such as licensing fees, tuition, background checks, training courses, application fees, uniform costs, transportation costs, dry cleaning, new tools, etc. Even gas is an expense if you drive to work every day.

So it's not as unusual as you may have thought. Its just what your perception of what paying means. Does that make sense to you? Great.... then don't let that false negative mindset hold you back

Not Interested...

Sorry to hear that.. Look I'm not here to convince you to do something you don't want to do...but let me ask you something out of curiosity just so I know I am doing my job correctly..... What exactly are you not interested in... The lifetime residuals or the immediate income you were looking for since this opportunity provides both?

How Much do you make?

More than I thought I would at this point. Plus I get paid Residual income for life which will soon replace the income I was making at my prior job and I haven't even finished getting paid on it all yet.

But Keep in mind that even if I am making just an extra 5K a month right now, how much I am paid is NO indication of how much YOU will be paid. You might be 10X better at this than I am and some people are. Let me ask you 'How much are you hoping to earn?

On The Fence

Let me ask you something before I let you go...._____ Did you know that 75% of Americans live paycheck to paycheck, have 0 in savings and no retirement income other than social security which pays \$1200 a month or less, and are losing hope for something better in their future? Who can live on that? I hope you wont be in that category. You have an opportunity to earn an incredible income with very little effort that you can pass on to your family and protect their future.. what the heck would hold you back? Tell me

Person keeps interrupting

I appreciate your desire to want to know all you can immediately. But just so you know, I have a job to do and the first part of the interview process is based on my determination of how well you listen and can follow instructions. All your

questions will be answered of course, so just relax ok? With that being said, are you ready to continue? Ok great..

Is this MLM/NETWORK MARKETING

_____ no it is not... you are not required to purchase or pay anything in order to work with us. You are not going to meet anyone in their homes or ask you to make a list of your friends and family. Everything we do is online and over the phone. However we do have an optional business building aspect that for a one time only upgrade fee will allow you to earn a residual income on all sales from your team. Not just your own sales. It really is a unique program. Would you like to learn more?

I HAVE NO MONEY FOR GOLD OR TO UPGRADE

[FIRSTNAME], I understand. And as we told you, you don't need any money to work with us but it just makes so much sense to upgrade as it possible quadruples your income for the same work.

But let me ask you something and be honest with me... If you had the money to upgrade to at least the silver level, is this something you would do for your family?

NO .. ok then this is probably not for you.

YES Great, I'm glad you said that. Then what I am gonna do is help you find some HIDDEN MONEY that you forgot about.

What many of my team members with the same circumstances you have, did to upgrade quickly was to do a search for things in their home or storage unit that they could SELL quickly on Craigs List, eBay or local pawn shops, such as jewelry, art golf clubs etc...whatever they didn't use any more. Especially gold jewelry. Is that a possibility for you?

Great.. and you know where you can sell those items correct
