

BIOACTIVE SOLUTIONS™

EFFECTIVE • SAFE • GREEN

BETCO®

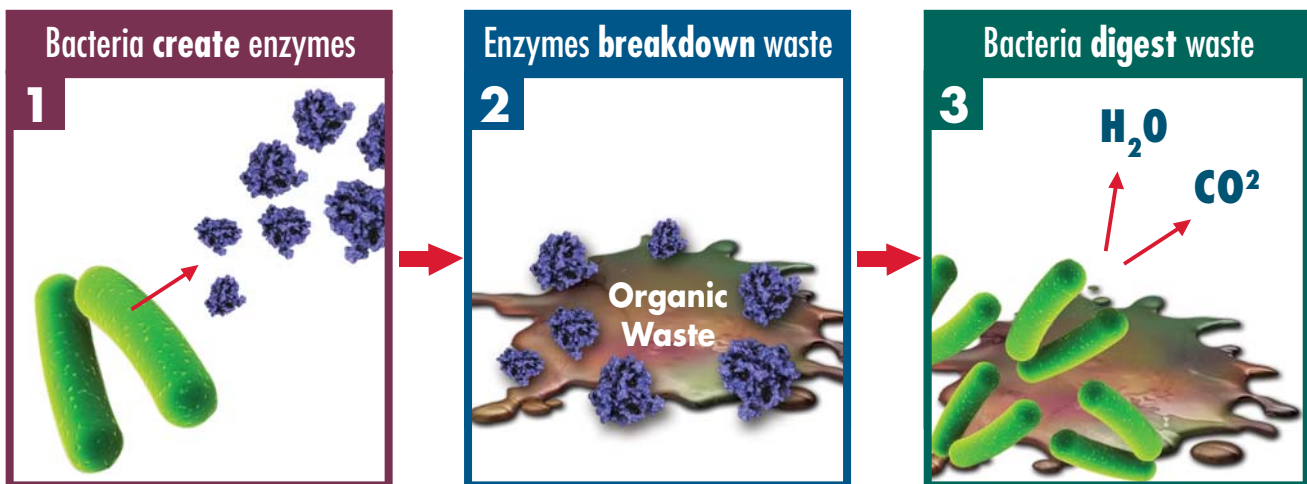

Cleaning Innovations That Matter.

What is BioActive Solutions™?

Bacteria that continue to work for you!

BioActive Solutions are safe and efficient cleaning chemicals formulated with live bacteria that naturally create enzymes, to digest FOGs (fats, oils, & greases) providing a long lasting result!

HOW DOES BIOACTIVE SOLUTIONS WORK?

EFFECTIVE

- Breaks down organic waste and helps prevent the build-up of scale in drains
- Bacteria continue to work long after their application which reduce labor costs

SAFE

- Less hazardous than typical cleaning products because bacteria are not genetically altered
- pH Neutral formulas are safe for cleaning applications

GREEN

- Third party certified products
- The use of bacteria plays a vital role in balancing nature and human life

BIOACTIVE MARKETS

EDUCATION

- Reduces malodors in restrooms
- Great use for FOGs present in cafeterias

FOOD SERVICE

- Grease cutting surfactants and solvents for immediate cleaning, while proprietary non-pathogenic bacteria break down kitchen grease, fats and oils providing continuous extended cleaning
- Saves money by extending grease trap and septic cleanouts
- Reduce the amount of slip and fall accidents

HEALTHCARE

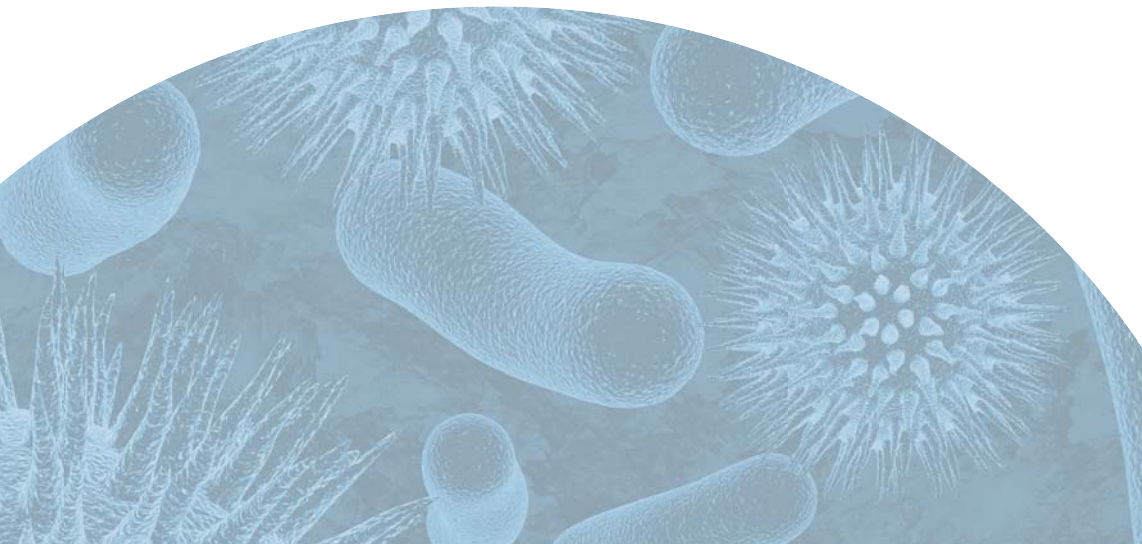

- Helps reduce malodors in restrooms and kitchen cafeterias
- Nonpathogenic bacteria in every ounce produce enzymes that degrade organic wastes naturally

INDUSTRIAL

- Good for greasy tools and floors due to spills or leaks
- Reduce the amount of slip and fall accidents

RETAIL

- Reduces malodors in restrooms
- Great use for FOGs present in cafeterias or breakrooms

Grease traps

Urinals
