

POLY MAX™

LEED POINTS

LEED NC Credit MRc4	1 – 2 Points	Percentage by weight of post consumer content (LEED points will vary by system thickness and color ratios.)
LEED NC Credit MRc5	1 – 2 points	Regionally harvested and manufactured – this would refer to the recycled tire material used in our cushion layer. Points valid when project is located within 500 miles of our Southern California location.
LEED NC Credit SSc5.2	1 point	Pedestrian hardscape areas may be counted as open space.
LEED NC Credit SSc5.2	1 point	System is a pervious surface.
LEED IEQ Credit 4.1	1 point	Low VOC adhesives (credit is applicable when project is located indoors)
