Happy New Year from Sunset Nursery School!

Welcome 2019! Sunset reopened its doors on January 2 from the Christmas break with wonderful expectations of what the New Year will bring us. The children were so happy and excited to see their friends and teachers again. We also welcome some new children and families who've just joined our program.

January is the half way point of the school year! A lot of wonderful things will be happening during the second half of the year; such as the art show and family day to name a few. When the children return, they will be coming back to new additions in each of the areas. There will be new puzzles, books, dolls, dress up clothing, cars, science and math manipulatives, and more. We love to keep them interested in the centers and by switching out the material and manipulatives, we can do just that. This month we will also be working on our evaluations. This helps us to keep on track with the benchmarks and goals that we have set for our curriculum. It is a busy time of year, but we do keep it light and fun for the children. The assessments will be sent home at the end of January.

Please keep in mind, enrollment for our 2019-2020 school year has begun! Classes have filled quickly in years past and we expect it to be no different this year. The families already in the school can select their classes first and then we add the people on the wait lists that we've been compiling. Registration is on a first-come, first-serve basis so don't delay in signing your child up as soon as possible.

Thank you for your continued support for our school. The teachers and I wish you all a happy and healthy new year!
