

Breathing life into dreams and dreams into books

Publish, print and bind your book yourself

Using the Glorybound Lasertrain you have the opportunity to input your own manuscript into templates of pre-designed books under the watchful eye of trained Graphic Designers. If you desire to keep complete control of your project and retain the copyright, this is the road for you to take.

We have lap tops pre-loaded with the software needed to compile books and 200 templates available for 14.95 each. Lasertrain is rented by the hour for 25.00 per hour and has 40 machines which can be utilized. You can print and bind your book for a very low cost! The Lasertrain is very flexible, so you can design the file on site, take it home and print it, then return to bind the books.
