

November 2015 trail report

Hidden Falls November SAJE Club Run.

The last club run of 2015 was at Hidden Falls Adventure Park in Marble Falls, Texas held the weekend of 11-13/15-2015. We arrived Friday afternoon and met up with Jeff M. and Gerald & Louann H. We hit the trails after lunch to find the creeks finally had a little water in them along with some mud on the trails. The main part of the trails were dry and we had good traction. All returned to camp and we started a fire after dinner. It was perfect campfire weather Friday night.

Saturday's driver meeting was greeted with cloudy skies and about 25 +/- eager Jeeps ready to hit the trails. Yours truly led the light/ medium group while Steve S. led the medium/ hard group.

We hit the trails and started with TRO then met new club member JC Walker and family. Then headed to North Pole and had lunch at the tower on the hill with a great view of the valley below. After lunch we found Greenhorn and finished the afternoon off on Baby Back when the rain started. Got back to camp and managed to stay dry until Gerald and Louann H. finished the club meal. Thank you both very much for a hot meal in the cold rain.

I didn't hear any reports of any problems on the trails or any damage. Although one member of my group might want to ask Santa for a snorkel for his Jeep. Lol. Thanks to Milton J. for the firewood on Saturday the rain let up and we managed to burn it all. For those that took photographs during the day you can send a link to Connie H. to your online photo album to share with the other club members. Thank you to those that share the photos.

I hope all made it home safe and look forward to seeing everyone at the January club run at SWR in Llano the weekend of January 23-24, 2016. Joyce and I will be making the not so famous Llano Chili with all the trimmings.

Don't forget we do not have a club run in December as we have the Club Christmas party on December 5, 2015. Email Jack B. if you plan to attend. Check the club event page for Jeep Jamboree registration dates for 2016.
