Tips on Exhibiting Vegetables

Beans: *Do not wash.* Wipe gently with a soft cloth. Should be uniform in colour and size, fresh (snap when bent), free from stringiness, fine grained smooth, fleshy clean, well filled.

Beets: Tops removed $\frac{1}{2}$ " (12mm) from crown. Trim roots to 1", should be 2 to 2 $\frac{1}{2}$ " (5 to 7mm). *Do not scrub.* Can be placed in cold water bath before carefully wiping off soil.

Cabbage: Trim stem $\frac{1}{2}$ " (12mm). Trim heads down to two layers of sound green outer leaves.

Cauliflower: Heads should be dense, well-formed, and free from fuzziness and small leaves. Trim stems to $\frac{1}{4}$ " to $\frac{1}{2}$ " (7-12mm). Leave 4 to 6 lower leaves around head and trim squarely across leaving $\frac{1}{2}$ " to 1" (12 – 25 mm) projecting above head.

Corn: Remove $\frac{1}{3}$ of husk from tip to butt. *Do not totally strip husk from ear.*

Cucumber: Trim stem to $\frac{1}{4}$ " (7mm).

Onion: Remove roots just below base of bulb. Remove only jagged and dirty outer leaves. Cut tops $\frac{1}{2}$ " to 1" (12-25mm) above bulb.

Class 18 Flowers & Plants

Director: Betty Caldwell, (705)-382-3204

Rules

Refer to Rules & Regulations, page 9 and Hall Class Rules, page 19

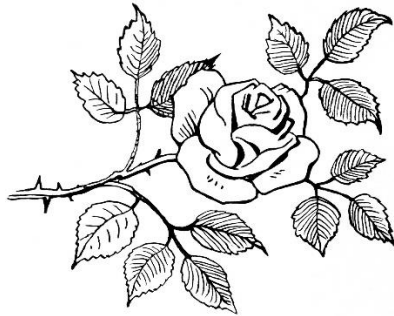

- The exhibitor must grow all flowers and plants
- Cut flowers to be shown with their own foliage
- Buds count as blooms.
- African Violets should only have one crown (the centre growth of leaves and flowers) only.
- Potted plants should have only one plant per pot.
- Potted plants must have been grown in a pot and not dug from the garden.
- A bloom is an individual flower on a stem. Remember buds showing colour count as a bloom and should be removed if prize calls for one (1) bloom.
- A spray is a portion of a plant with a number of flowers and buds.
- A stalk (same as a stem) is a plant structure carrying one or more flowers and/or buds. It may be branched.
- A spike is an upright stem carrying several flowers, usually with short pedicels, such as gladioli and snapdragons.
- Cut flowers are judged based on condition (free of disease), size, uniformity (all specimens in an exhibit should be the same size, form and colour), colour (fresh, clear, bright, etc.), form (proper shape of the flower) and stem and foliage (strong straight stems and clean foliage).
- Make sure all dirt, seed pods, etc. are removed and containers are clean.
- Roses should be shown half to full bloom except when bud is specified in prize list.
- Gladiolus should be straight, balanced and have approximately 1/3 flower fully opened.
- An arrangement is the composition of colour, size and shape to produce a pleasing effect. Each unit (e.g. flower, fruit, vegetable, etc.) is placed so that all of them together produce a design. Although mechanics (floral foam, chicken wire, etc.) make designing easier, they are not required for arrangements/designs, but may be used if desired. Judging is based on arrangement only unless container is specified in prize list..
- Wildflowers, weeds, roadside or any material, which is commonly found along the roadside, in meadows, etc.
- A dried flower encompasses all material that is not fresh.
- A bouquet is a designed bunch of flowers and foliage, and the stems are tied with string before inserting into container.
