Commercial Series Wet/Dry Vacuums

RIDGID® Wet/Dry Vacs are the highest powered vacuums in the industry – offering 3.5 to 6.5 peak horsepower in 3 to 16 gallon capacities. They are an excellent accessory to your shop or garage, making easy clean-up for even the most challenging jobs. The RIDGID Wet/Dry Vacs offer the following features:

- Proprietary motor and patented blower wheel designed to maximize performance.
- Pleated filter has more surface area for greater efficiency and longer life.
- Reduced dB sound level resulting in even quieter operation.
- Automatic suction shut-off senses and prevents liquid overflow – integral drain plug makes draining the vacuum easy.

The new ProVac series offers dynamic redesign and styling, a stronger 2-piece drum, an improved noise reduction system and an advanced 3-layer filter for better motor performance.

(TOOLTIP)

Replace filters – clogged filters make the vac less effective.

WET/DRY VACUUMS

Industrial Series Wet/Dry Vacuums

RIDGID® 2-Stage Wet/Dry Vacuums are designed and built for the toughest heavy debris and fluid pickup applications.

- Powerful heavy-duty, dual-stage motor provides maximum suction power.
- Power head with a patented SNR “Scroll Noise Reduction” design provides better airflow and suction with less noise, resulting in more power and quieter operation.
- Tug-A-Long™ positive locking mechanism securely locks the hose to the vacuum so the hose will not pull out during use.
- Dual layer hose provides maximum durability and crush resistance.
- Rugged polypropylene drum is impact and corrosion resistant.
- Heavy-duty cart system with large non-marring wheels provide effortless movement over the toughest terrains. The quick-release cart handle allows emptying the drum easily.
- Removable accessory storage bag keeps accessories together and accessible.
- Fine particle filter provides exceptional filtration, including for drywall dust. It is washable, reusable, clogs less and can be used for both wet and dry operation.

Professional Portable Air Mover

The quick drying action of the RIDGID air mover can be used to dry wet floors, wet carpets or other water-damaged areas. It is also ideal for drying shampooed upholstery or drywall, providing ventilation and more.

- Heavy duty .4 HP induction motor with three airflow speed settings (3.0 Amp, 2.4 Amp, 2.7 Amp) generates upto 1625 cfm.
- Long 30' power cord for extended reach with a built-in cord wrap.
- Three-position base varies direction of airflow. Multi-position housing directs air upward by tilting the unit to a stable 45° or 90° position.
- Professional styling and bold color signals caution while drying slippery floors.
- Impact resistant housing and durable design.
