

Biology 62S  
Homework Set 7 (Last One!)

Please read pages 406-440 in your textbook and answer the questions below.

1. What gives Red Rock Island its trademark color?
2. Would you expect to find more species of plants on Brooks Island or Angel Island, and why?
3. Experimental island biogeography is rare nowadays, probably because of permitting. Describe the experiment set up in 1957 on Bird Island and what ended up happening.
