

Tap9 from Lacombe Alberta, Canada, came together in 2010. With musical styles and backgrounds that range from Blues, Country, Jazz and Rock the band shows no limitations to their writing and performing abilities. Having 2 studio albums, an original Christmas song, music video, and their new hit “Bluejeans” Tap9 is always creating new and exciting original music.

We formed while playing together in Cover Country and Big Bands. We had this burning desire to write and perform original music. Our first commercial recording and release was in 2011 with “Alberta Home”, Over 100 original songs later, 17 released on iTunes, and with some radio play across Canada, the band recently recorded two new songs, Bluejeans and Superhero, in Saskatoon with Bart McKay.

Tap9 performs regularly including headlining large events such as Canada Day in Red Deer Alberta, Casinos, Bars, private events and this year backing up Gord Bamford at the Lacombe Canada Day 150 year Celebration.

Here are a few media quotes

“Talent is something the group has in spades, along with experience. Each member of the band had played with other musical groups long before Tap 9 came into existence....Brian Vossen - Lacombe Express

“What you get with Tap9 is five accomplished musicians playing well-produced original music. With songs that vary from guitar and drum- driven upbeat numbers to sultry saxophone-touched harmony- soaked crooners, this is an album that showcases the versatility of this small town band with the big city sound.” .....Bad Tempered Zombie
