Settemeyer is a Partner member of RSAH2O, LLC – an environmental consulting firm with strong emphasis on water issues.

Settemeyer has over 40-years experience at the Texas Commission on Environmental Quality in Texas water policy and procedures; interstate river compact administration and Supreme Court litigation; international treaty compliance; and adjudication of Texas' water rights, including water rights management, permitting and enforcement experience.

Settemeyer served as Texas' member of the Association of Western States Engineers and represented Texas' member on the Western States Water Council. His experience includes coordination of issues involving federal agencies - Bureau of Reclamation, Corps of Engineers, U. S. Geological Survey, U. S. Fish and Wildlife Service, and the International Boundary and Water Commission; including implementing federal contracts. Also, his experience includes ensuring Endangered Species Act compliance as a member of the Rio Grande silvery minnow recovery team and a representative on the Edwards Aquifer Recovery Implementation Program.

Settemeyer received a BS Agricultural Engineering from Texas A&M University and a MS Agricultural Engineering from the University of Wyoming. He is a Registered Professional Engineer in Texas.
