RULES AND REGULATIONS

Application of Rates

Item 1

LTL rates are applied on shipments only when shipped from one point, in one day, by one shipper on one bill of lading for delivery to one consignee at a one destination. Rates will apply on minimum weight or actual weight (including tare weight) when greater, subject to minimum charge provided in tariffs made party hereto.

Courtesy Pricing Provision

Item 2

Shipments tendered to carrier without an agreed upon rate shall be rated utilizing the Pinnacle Trucking tariff and applicable accessorial and fuel surcharges as stated in the ANTT 100 rules tariff.

Currency and Payment of Charges

Item 3

Carrier shall submit an invoice to the specified party in accordance with the terms on the original bill of lading. Payment terms extended are "net 15 days" on all invoices. Failure to remit payment within terms may result in all future transportation charges to be collected at the time shipments are picked up or delivered (in accordance with the original bill of lading terms).

Freight invoices not paid within 15 days are subject to forfeiture of discounts and/or quoted rates and will be rated at full class based on the current tariff in effect and actual class. Invoices will also be subject to a service charge of 1 and ½ % per month. In the event carrier deems it necessary to retain the services of legal counsel and/or a collection agency to collect any outstanding indebtedness, responsible paying party (shipper/consignee/broker) shall pay attorneys' fees in the amount of \$300.00 or 25% whichever is greater.

All disputes of any kind that may require litigation between Antunes Transportation, LLC. as plaintiff and/or as defendant related to transportation issues will be held in Bristol County, Massachusetts and the prevailing party will be entitled to reasonable legal fees.

THIRD PARTY BILLING: Carrier does not employ property brokers or other intermediaries as its agents for the solicitation of shipments or the collection of freight charges. Carrier will invoice the shipper's broker, bank or other agent for freight charges. The consignor and consignee guarantee to pay the charges if the third party fails to do so in the time allotted under the applicable credit regulations. Any such shipment will not be accepted if the consignor executes a nonrecourse provision of the bill of lading.

PRIORITY OF FREIGHT CHARGE OBLIGATION: When arrangements are made with intermediaries for transportation services provided by carrier and the intermediary in turn bills the shipper or beneficial owner of the goods for the freight charges inclusive of carrier's rates, the following rules shall apply:

- (1) The intermediary will segregate money due owing to carrier from other accounts.
- (2) Intermediary will pay carrier without offset from funds received and shall not commingle, pledge, encumber or hypothecate funds received by it intended for payment of freight charges to carrier.

- (3) When the arranger of transportation is a carrier or freight forwarder, a constructive interline trust shall apply.
- (4) When the arranger of transportation is a property broker, the regulations set forth at 49 C.F.R §371 shall apply and monies received by the broker shall be segregated from its other assets and liabilities.
- (5) In no event shall accounts receivable pledge or encumber by any intermediary be inclusive of freight charges billed by it to the extent those freight charges are due and owing to carrier.

Carrier preserves recourse for payment of all freight charges to the consignor, unless Section 7 of the STBOL is signed, and the consignee unless prior notice is given that the consignee is not to be responsible for freight charges in accordance with to Section 7 of the STBOL.

Late Payment **Item 4**
