The GroupHRA Advantages

Complete Control – Predict and plan for your employee health plan costs by deciding how much money to give to employees. If you change plans or carriers, you and your employees will not lose claims data or have to learn new systems. Powerful reporting tools let you see how well your plan is working, and you can make changes as needed.

Easy Administration – GroupHRA's easy-to-use online interface lets you manage your health plan quickly and easily. Plus, we help you communicate your plan to employees and take care of day-to-day review and approval of receipts. You spend less time managing your employee health plan and more time managing your business.

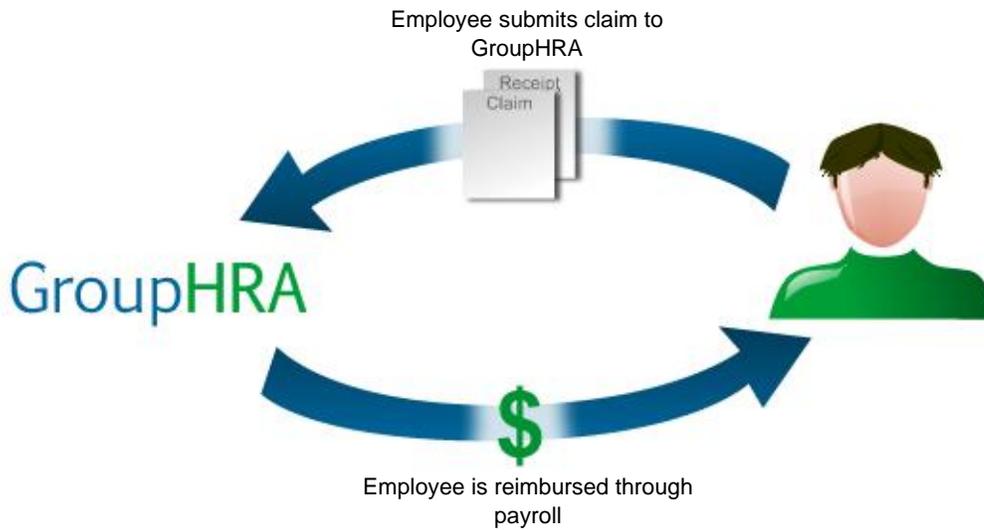

Employee Satisfaction – GroupHRA is also great for your employees. Not only does it reduce their group insurance premiums, but it gives them the security of knowing that you will reimburse the money they spend to cover deductibles and other medical expenses
