

# SHILOH TABERNACLE 19.48

The purpose of this chart is to consider the distance in miles from the ancient site where the Tabernacle of Moses was in Shiloh to its final resting place of Jerusalem. From the exact spot in Shiloh believed to be where the Holy of Holies placement for the Ark of the Covenant to the exact place that many believe was and will be the corresponding place of the Holy of Holies on the Temple Mount, which would be the Dome of the Tablets is exactly 19.48 miles. This echoes the year Israel was 'birthed' in 1948 and linked perhaps prophetically then to the 70th year that signifies a generation. There appears to be a correspondence that resonates with several key prophetic events persons and numbers that allude to the time and perhaps eventual need for the building of the 3rd Temple. In terms of background, Shiloh is just about one and a half hours north of Jerusalem in the hill country of Samaria. This is where Joshua was instructed to house the Tabernacle of Moses and the Ark of the Covenant. In essence, Shiloh was the 1<sup>st</sup> 'Spiritual Capital' of Israel. There was no Jerusalem to speak of other than it was an occupied insignificant Jebusite stronghold. It was not until King David that transported the Tabernacle and the Ark of the Covenant to Jerusalem that it ended just over 300 years being at Shiloh.

## THE UNVEILING OF THE ARK OF THE COVENANT

**May 14, 1948**

David Ben Gurion declares Israel a nation. It is rather interesting that the new nation birthed has its 1st leader as a 'David'. The 70th year, as with King David marks his 70th year when died.

### Tabernacle of Moses

### Shiloh

Although it entered in the heart of David to build a permanent 'House' for YHVH in Jerusalem, YHVH forbid it due to David being a man of war. Herein is a fantastic clue of when and how the 3rd Temple is to be built. It has to follow the same protocols, prophetically. In this case, it had and has to be by a 'Man of Peace' to come like that of David's son, Solomon to build the Temple. The mere name of Solomon is a derivative of Shalom or 'peace', etc. Thus, whomever is to come on the scheme in modern Israel that promises 'Peace and Security' will also be that one to build the 3rd Temple.

**70 AD + 1948**

= 2018, the exact year of the anniversary for the 70th year timespan. Will a coming 'King David' type and that of a son, as with Solomon build the 3rd Temple to house the Ark of the Covenant?

### King and Prophet vs. AntiChrist and False Prophet to come.

It is King David that brings the Tabernacle and Ark to Mount Moriah. King David dies at the age of **70** after reigning for **40** years, and on his deathbed counsels Solomon to build the Temple to YHVH and house the Ark of the Covenant.

### Jerusalem Dome of the Tablets

If the Ark of the Covenant is to surface shortly after the 70<sup>th</sup> year timeframe of Israel's rebirth, then there will be a religious demand to have it housed; thus 1 major reason for the need build the 3rd Temple. It could be the case that from 2018 onward, the year 1948 being resonated by the 19.48 miles of which the Ark of the Covenant once was stationed might be signaling that the Ark is soon to be unveiled, presented and stationed one again. Such a spectacle will be the dreams of Archeologists and the Theologians like and what a sight it will be to behold. The whole Shiloh chapter of the Ark of the Covenant is thus connected to a King, a Prophet a precise place, a precise year and even distance, topographically. As noted, it is only when one uses the specific coordinates of the Dome of the Tablets that the resulting number is 19.48 miles occurs. No other spot on the Temple Mount has such a similar result, which amazing.

'The Scepter shall not depart from Judah, nor a Lawgiver from between His feet, until Shiloh come; and unto Him shall the gathering of the people be.' -Genesis 49:10
