

About Us

Each of our services revolves around supporting the family of the addict or alcoholic. Baystate Recovery Services (BRS) and its staff have been helping families fight the epidemic of addiction since 2008.

Our team's success in helping families has grown from being a small local resource to a nationally recognized company. Our primary goal is to prepare you with tools so that you are more equipped to be involved in a healthier and more productive way.

Our Free Consultation

This is our first meeting, which we offer for **free** to you and your family. This meeting gives your family a chance to meet with our staff to determine if our team and our services are a good fit for your situation.

Our experienced staff will walk you through a line of questions designed to help us understand your loved one and your concerns, so that we can determine exactly how we can help.

Family Intervention

When the family is willing to fight the addiction but the addict is not, we intervene. Our Interventions are always lead by a certified interventionist.

The BRS Intervention is a 30 - 90-day process designed not only to help you and your family prepare for the day of intervention, but it allows us to be involved long after to help you deal with any and all problems that may arise.

Structured Recovery Living For Men

Barry's House is owned operated by BRS. It's is a highly structured home-like environment for men who have the sincere desire to remain in a supportive recovery community as they practice and develop their sober lifestyle through the 12 steps. We have a 2 phase module to help phase our guests into sober independence.

For more details visit www.barryshousema.com

Sober Companion

Whether your loved one is changing treatment facilities or on a break for an important event such as weddings, funerals, births, court dates etc. Our companions will travel with our clients and stay anywhere in the country to help protect there sobriety during a gap in treatment.

Treatment Transportation

The goal is to help the client maintain total abstinence and protect our clients from self induced harm while in-between, or on the way to, a residential treatment facility.
