December 2011

### Subcontractor Fee:

\$76,974.00

DeKalb County Parks and Recreation is to redevelop the existing Mason Mill Park Day Use Area (DUA) to increase functionality of the existing available services. The subject property is 19.5 acres (17%) of the 118 +/- Mason Mill Park and is located in land lot is 103 of the 18th district, DeKalb County.

The project entails invasive plant species removal followed by revegetation with native species, installation of bioretention areas to treat stormwater runoff, grading and stabilizing an existing stormwater channel, and piping stormwater into an existing tank for storage and reuse.

### *Services performed included:*

#### *Construction Staking and Layout*

P.L.D., Inc. used land surveying services for construction layout of storm structures, limits of disturbance, and as-builts. All surveying performed was compatible with the County's G.I.S. system database.

#### *Construction Management Services*

P.L.D., Inc. managed erosion control installation, tree clearing, and landscaping services at Mason Mill Water Works.
