STONY BROOK MEDICINE
CHILD LIFE DEPARTMENT

January 23, 2019

Jacie's Kids
P.O. Box 541
Deer Park, NY 11729

Dear Ms. Haas:

The Child Life Program at Stony Brook Children's Hospital wanted to thank Jacie's Kids for participating in our annual holiday donation season so that children hospitalized over the holidays at Stony Brook Children's could celebrate and enjoy even while they are coping with illness and medical care. The mission of the child life program is to make hospitalization and all medical procedures easier for children to understand and experience. We want to thank you for helping a child that might be going through a difficult time to smile and play.

It can be especially difficult to be in the hospital when you are very young. We consider our community donors to be integral to our ability to touch and enrich the life of each child we meet. We appreciate the care, concern and hard work it takes to do a toy drive at the holidays!

Sincerely,
Joan Alpers
