

## Affirmation 2

**1 God** created 2 universe and selected humankind to become Custodian of the physical universe !

When **1 God** created the Universe it was divided into 2 parts: the 'Physical Universe' (PU) and the 'Spiritual Universe' (SU). Our Soul commutes (Reincarnation) between both Universes' to end up staying in the 'Spiritual Universe' as Angel (Eternal). Our body lives in the 'PU'. The body's' immortality comes via mating, multiplying and having, raising children.

**1 God** created pulsating, bright, fiery 'Sun Stars'. These Sun Stars gave birth to orbiting Planets creating Solar Systems. We live in a solar system called, 'Destiny' on a planet called, 'Earth' our home!

**1 God** created the Physical Universe slightly imperfect. **1 God** created a cycle of 'Beginning, End, Recycling'(B.E.R). Everything in the expanding physical Universe has a beginning and an end with the leftovers being recycled. This imperfection and the cycle 'B.E.R' led to the creation of 'Evolution'. **1 God** created, 'Evolution' to ensure that there is ongoing changes happening in the Universe.

Humankind needs to accept that change is ongoing, always! Evolution operates by using, 'Trial and Error' to tackle challenges. Humankind should 'Plagiarize' Evolution.

**Note ! 1 God** does not charge copyright. Neither should humans (greedy, parasitic, predatory, profiteers) **MS R6 !**

Everything that is part of 'B.E.R' cycle is given a part of the Original Soul. The Soul keeps both Universe connected and in touch with **1 God**. **1 Gods'** procedures used when creating both Universe, guide us as to which procedures need apply to living. Follow **1 God's** examples!

**1 God** created by design an imperfect Universe. We should accept that nothing is perfect (perfection is not possible). Perfect is an abstract, unreal. 1 person's perfect is another person's imperfect!

**1 God** created the Physical Universe in 6 Days, Day 7 was a Rest Day. **1 God** set the example work 5 days on day 6 evaluate your work, complete any unfinished work, plan next weeks work. On day 7 rest enjoy life have a Fun Day, pray, socialize, visit a Gathering.

**1 God** created 'Evolution' to ensure that their is ongoing changes happening in the Universe. Humankind needs to accept that change is ongoing, always! Evolution operates by adjusting to change and imperfections. Humankind is to use Evolution as mentor.

**1 God** gave everything in the 'PU.' a survival instinct. When the chemistry was right, Evolution expanded (evolved) the survival instinct to intelligence. The ability to make choices, logic, reason,..

## Evolution 1 God's miracle !!!!!!!

The ever expanding 'Physical Universe' needed 'Custodian'. **1 God** searched, found a Planet that evolved more than any other. Planet 'Earth' our 'Home'. To be Custodian of 'PU' a specie has mathematical understanding ( $\infty$ ). **1 God** created a new specie on Earth, that had this ability, understanding: Humans,us,you!

**1 God** created 3 specie (Races) versions. Evolution cheekily evolved 1 more. African, Mongolian, European and Evolved. **1 God** is happy with 3+1 Races. Keep **1 God** happy, apply: 'Racial Integrity'.

**Racial Integrity'!**  
3+1 Races are equal  
but different.

Mixed breeds are an insult to **1 God**! Mixed breeds undermine **1 God**'s design. Being proud of your Race is mating and multiplying within your Race: **Racial Integrity !!!**

**1 God** created on Day 6 humankind to become Custodian of the Physical Universe. **1 God** expects humankind to be Custodian of the local Habitat and the wider Environment. This applies to our planet, moon and everything else in the Physical Universe.

The Universe keeps expanding, so should Humankind. **1 God** wants humankind to venture out into Space (explore, colonize) and beyond our solar system embracing all of the physical Universe.

To fulfill our 'Destiny', there needs to be a 'Holy Matrimony' contract, then mating and multiplying. Population growth, Space Exploration and Colonization are Humankind's 'Destiny'.

Custodian care, understand and harmonize with the local Habitat and greater Environment. Humankind is to understand the interdependent ecosystem. 'We change 1 thing and evolution will respond by changing everything else dependent (ecosystem) on the 1 thing'.

Currently Humankind's performance as Custodian is poor. 1 GOD is dismayed! Humans who are responsible for making 1 GOD's most beautiful Creation Planet Earth sick, unlivable are to be rehabilitated: MS R7

## Zero Tolerance to Polluting: Air ~ Soil ~ Water and Space

Wasting of Resources, Energy for useless consumer 'Junk (disposables)' and idle 'Entertainment (caravanning, cruising, sport, tourism)' **Stops!** Resources, energy and 'Know How' are to be allocated for Space Exploration, Colonization, Humankind's Destiny! Education is to refocus. Understanding: the environment, Evolution, Space travel, the expanding imperfect physical Universe. Is the new focus.

### Must do :

Respect 1 God's design of the changing imperfect Universe. Accept that change is constant that nothing is perfect! Follow 1 God's design!

Study, apply the Cycle of '**Beginning, End, Recycling**' (B.E.R).

Observe '**Evolution**' how it adapts and survives by imperfection and uniqueness. Always's think about '**Cause and Effect**'\* before acting.

\*The Physical Universe uses Cause and Effect. On a small scale any change to a local Ecosystem has an effect on other parts of this system.

**Cause:** Using 'Chemical insecticides'!

**Effect:** Alters food chain reduces plant pollination, creating mutations, becoming a risk to human health.

**Action:** Replace chemical with natural insecticides!

**Cause:** Enriching Uranium!

**Effect:** Deadly radiation, greatest threat to human survival!

**Action:** Stop Nuclear research! Close Nuclear facilities! Close uranium mines! Cage Nuclear Scientist, MS R7.

**Cause:** Burning Coal!

**Effect:** Choking humans and animals! Greatest human health risk!

**Action:** Stop burning coal! Close coal mines! Prosecute, **MS R7** all mine workers, mine owners, coal transporters, coal burners !!!!

**Cause:** Growing GM Crops!

**Effect:** Alter genetics of whole food chain creating mutations. Interfering with **1 God's** design! Greatest threat to human design!

**Action:** Shire destroys crops and scorches soil for 3 years.

Cage GM Scientists, Seed Producers, Seed Growers! **MS R7**

**Cause:** Consumerism creating Garbage!

**Effect:** Polluting soil, water; vermin, insect plagues; gas emission!

**Action:** Stop producing, buying disposable, non essentials (**Junk**)

**Cause:** Violence towards Life (**human, animal**), Environment!

**Effect:** Misery, suffering, injuries, death and destruction!

**Action:** Stop violence and prosecute the Guilty! **MS R1-7**

**Cause:** Capitalism!

**Effect:** Corrupt, elitist, unjust, selfish, wealth apartheid, anti **1 God!**

**Action:** Cage Profiteers, **MS R6**. Confiscate private ownership assets. Convert to **CROn** (**Community Run Owned not for profit!**)

**Cause:** Communism!

**Effect:** Corrupt, incompetent, unjust, anti **1 God!**

**Action:** Replace government with multi choice elected candidates.

Replace State owned entities with **CROn** !

**Cause:** Hereditary Tyranny!

**Effect:** Corrupt, incompetent, unjust, wealth apartheid, anti **1 God!**

**Action:** Replace Tyranny with multi choice elected candidates. Replace wealth Apartheid with social justice and **CROn** !

**Cause:** Cannibalism!

**Effect:** Cloning, body fluids organ transplant, creating monsters!

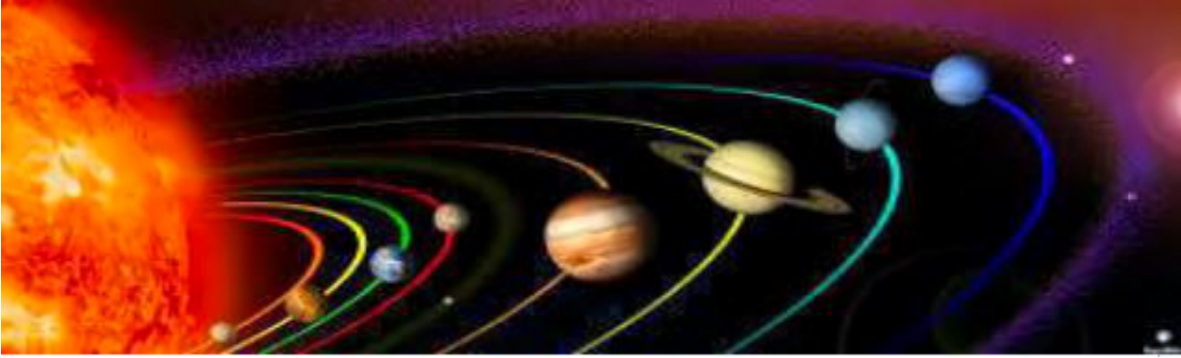

**Action:** Stop cloning, transfusions, transplants!

**Live in 'Harmony' with your Surroundings...**

Being Custodian of the Universe entails 'Space Exploration'. Space Exploration leads to 'Space Colonization'! Both are Humankind's Destiny.

Space Colonization needs 'Population growth'! Population growth comes via 'Holy Matrimony', mating and multiplying! **Note!** Doesn't apply to **sexual disability** (confused, same gender,..) afflicted.

The expanding 2 Universe need more Custodians and Angels. Let nothing interfere with your Soul's life experience mission.

Celebrate: **08.1.7. Universe day (NAtm)**! At your local Gathering. Custodian Guardian also use the Gathering as hub for custodial duties.

Custodian Guardian use their local Gathering as hub for custodial duties. Action and activities, starting with family, community,.

**Pro:** environmental action, activities concerning climate change, ecosystem, wildlife, vegetation, human survival.

**Pro:** non violence action, activities, reporting violence against people, animals, environment, neighborhood watch.

**Pro:** non profit action, activities, establishing CROn, promote, use...

**Pro:** new age time management.

**Pro:** accountability, mandatory sentencing, life.

**Pro:** free education, free health care, volunteering, weekly minimum wage.

**Anti:** capitalism, communism, burning, cannibalism, coal, cruise shipping, garbage, genetic modification, immorality, junk, junk food, lead, plastic, pollution, tourism, uranium, wealth apartheid!

For all activities the Law Giver Manifest is our guide.

**Universe Prayer**

1 **God** is waiting to hear from you !

Dear **1 God**, Creator of the most beautiful Universe  
Your most humble faithful custodian guardian (1<sup>st</sup> name)  
Thanks You for selecting Humankind  
Pledges to be custodian of Planet Earth  
Pledges to colonize the Universe and be its custodian  
Asks for help in fulfilling Humankind's Destiny  
For the Glory of **1 God** and the Good of Humankind

This prayer is used when needed and on Universe day !

Before space colonization comes space exploration. Each Province build put into orbit a 'Space Exploration port' (SXp). All exploration is initiated from SXp's. A S>Xp is also quarantine for all in, out coming traffic.

**Note!** Earth's Moon is a Sanctuary. No colonization! No military! No mining! No permanent based compounds! Each Province installs a data collecting module on the moon. 7 space ports orbit the moon. Rangers fly down to maintain modules. Visitors stay at space port, are not allowed on the moon surface.

**Leaving the moon as is. Is a human survival skill.**

Space exploration and colonization need rules (laws): S>X Laws 1 (inner space), S>X Laws 2 (outer space)! A Space Exploration Court (S>XC) that enforces them. S>XC rulings are binding for all Provinces !!!

### S>X Laws 1 (Inner Space)

Space exploration, colonization need rules (laws) which are upheld and enforced by a Space Exploration Court (S>XC). Inner Space Laws (1) cater for Earth Space and Earth Moon.

#### **SX Quarantine Law**

Nothing can be brought back to Earth! Everything brought back from Space is quarantined on a Space Exploration port (SXp). People involved breaking this Law get, **MS R7**

#### **SX Satellites Law**

Every Province has a right to privacy! Satellites from other Provinces invade this privacy. Foreign Satellites in a Provinces Inner Space are confiscated, dismantled and may be destroyed.

#### **SX Moon-Law**

The Earths Moon is of limits for mining, colonizing and military. People involved breaking this law get, **MS R7** Province (s) involved in breaking this law have their 'SXp' shut down for 70 years. All equipment used breaking this law is confiscated, divided equally by the honest Provinces.

### S>X Laws 2 (Outer Space)

Outer Space Laws (2) cater for Planet exploration and colonizing. They are upheld and enforced by a Space Exploration Court.

## **SX Exploration Law**

1<sup>st</sup> XC (**1<sup>st</sup> Exploration Claim**) of a planet or moon goes to a Province that builds a permanent manned base. 1<sup>st</sup> XC entitles to 1/7 of a planet. 1<sup>st</sup> claimant divides the planet into 7 equal areas, picks 1 of the areas. 2<sup>nd</sup> claimant picks 1 of the remaining 6 areas... the 7<sup>th</sup> claimant gets the last area. Once picked, areas cannot be changed.

## **SX Planets Moon Law**

A Planets Moon(s) belongs to the Province that 1<sup>st</sup> builds a manned base on it (**applies to each moon**). It is not shared with other Provinces! When a moon base becomes unused (**due to neglect,..**) any other Province may move in claim the Moon. Breaching Planets Moon Law a guilty Province loses the right to explore the moon's planet for 70 Years. All equipment used for this criminal activity is confiscated and divided equally by the honest Provinces. People in breach get **MS R7**

## **S-X inner and outer Space incompatible laws:**

**SX Earth Moon Law (inner Space)** does not apply to other colonized Planet Moons (**outer Space**)!

## **S-X inner and outer Space compatible laws:**

**SX Quarantine Law (inner Space)** is applied to every colonized Planet (**outer Space**)! **SX Satellites' Law (inner Space)** is applied to every colonized Planet (**outer Space**)!

## **S>XC (Space Exploration Court)**

Space exploration, colonization need a rules (**laws**) enforcer a Space Exploration Court. The S>XC uphold's Space exploration and colonization law. S>XC rulings are binding for all Provinces !!!

The court has 7 Judges (**1 from each Province**), no jury. Judgment comes by secret ballot, majority vote. **Minimum majority 4**. There is no appeal. Law Giver justice is the rule in every part of the physical Universe. The Universe Custodian Guardians thank **1 God** for creating the most beautiful Universe and making Humankind it's custodian.

**For the Glory of 1 God and the good of Humankind!!!**
