"MACHINEABILITY PLUS"

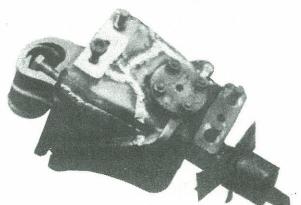

The finest alloy in the world for the welding of cast irons including:

Meehanite
Gray Iron
Ductile Iron
Malleable
Nodular
High Strength Cast Iron

Some of the Properties of MINERALS-TECH 600 are:

61,500 PSI Tensile Strength Highest Elongation (41%) For Crack-free Ductile, Machineable Deposits

Super Easy to Apply

No Pre-heat Necessary, Smooth, Steady Arc Welds Pass on Pass Without Chipping Slag Non-porous Dense Deposits, No Undercutting Easy Slag Removal, Low Heat Input, Weld Through Rusty, Dirty, Oily and Painted Surfaces! Excellent Weld Appearance!

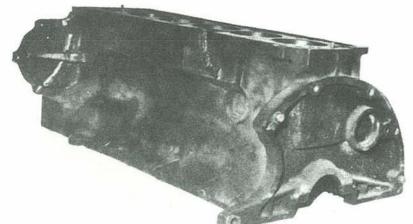

Typical Applications – MINERALS-TECH° 600

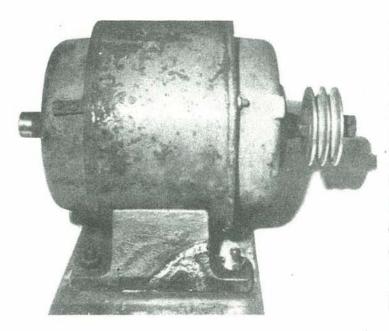

Some of the applications that MINERALS-TECH 600 has been a proven time and money saver include:

Machine Bases
Flapper Valves
Crankcases
Compressors
Cylinder Heads
Motor Blocks
Cast to Monel
Cast to Copper
Cast to Stainless
Foundry Defects

Sprockets
Manifolds
Pulleys
Pumps
Cams
Levers
Vises

Transmission Housings
Building up of Missing Sections

Gears, Worn or Broken
Differential Housings
Flywheel Covers
Cast Iron Flanges
Valve Bodies
Impellors
Housings
Lathe Beds
Gear Boxes
Ingot Molds
Cast Iron Dies
Oil Pans and Brackets
Reinforcing with Steel
Punch Press Frames and Bases

Any place a high-strength CRACK FREE MACHINEABLE weld is required.
