

2016 SUMMER TRAINING

Cadet

Training

AA Foley, Benjamin

Minnesota Aviation Career Education (ACE) Camp at the 934th Air Force Reserve Base at MSP

What did you do at training?

We flew planes, helicopters, and gliders on simulators.

What was particularly awesome, surprising, or memorable?

The location and people.

Anything else about the training you would like to share?

I made a lot of friends.

Would you recommend the training to your fellow cadets?

Yes.

More information about ACE Camp from www.mnacecamp.org

The Minnesota Aviation Career Education (ACE) Camp is a week long, residential, camp for high school students going into 10th through 12th grades. The camp allows these students to explore many different careers in the aviation field, including piloting, air traffic control, engineering, military, etc. Throughout the week, students will get classroom instruction, go on lots of tours, and even get to fly different types of aircraft (including single-engine planes, helicopters and gliders.) During week we are based at the 934th Air Force Reserve Base at MSP International Airport.
