

# The Dharma Horses & their stories

## Dream Cat

Dream Cat was schooled by Katharine as a young horse (17 years ago!) when she was Dressaging DC's sire, Kobayashi. When the breeder was looking to reduce some of her herd and Dream Cat became available, she came to Dharmahorse to live. DC had had a colt many years back, but he had to be "pulled" during a difficult birth and she was unable to have more foals.

This mare has always had proper training and grew up with proper care. This shows in her good health, aligned conformation and her light responses when ridden.

Dream Cat is in Sanctuary at DH for the rest of her life, here to teach us all the lessons of "good health is a symptom of balance".
