**Non Profit Pledges To Preserve The World of Sea Glass Through An Educational Exhibit.**

Successful small business owner and beach combing enthusiast, Danielle Perreault, launches a unique non profit, The Sea Glass Center. Set on preserving and presenting the historical, artistic and cultural significance of sea glass and beach glass through an interactive educational exhibit.

Joining her in this venture is Director of Operations: Aimee Thorman, Director of Business Development: Hilary Rowan, Director of Marketing: Adrienne Abookire and Director of Programs: Katherine Hery. In addition there are three Advisory Board Members: Nancy LaMotte, Christeena Hockin Minopetros, Maureen Massey.

Danielle's love affair for beachcombing began at an early age. Along with her sister, Aimee Thorman, they have over 30 years of sea glass hunting under their belts. Although she enjoys hunting all over the world, she permanently resides in Saco, Maine.

Recently featured on the NBC affiliate, WCSH6, the blog Super Girl Supper Club, and The Sea Glass Journal, this quickly growing non profit intends on becoming the unequivocal reference to all things sea glass, beach glass, and other worldly ocean treasures.

Members of the North American Sea Glass Association, Danielle and Aimee will be attending their festival in Cape May, New Jersey. Danielle will be a featured guests, giving a lecture on the history of sea glass.

Inviting you to join this cause, Danielle and Aimee are reaching out to fellow beachcombers as they begin their journey of collecting, cataloguing and preserving unexpected treasures that have washed up on shores all over the world.
