NEWS RELEASE

The Quehanna Industrial Development Corporation held their regular meeting September 18, with 16 people in attendance, which included two representatives from the Shawville Power Plant, Three representatives from the Karthaus Park Association, three representatives from the Pottersdale Community Park Association, and a representative from Visit Clearfield County, Pa.

Ray Savel reported on two representatives from the Governor's Action Team visited and toured the River Hill Power Company property and the Covington Township Industrial Site on August 31. Both representatives was very excited with what they saw and learned about the River Hill Power Company Property. We at QIDC feel this could us more help in recruiting industry to locate on this site. We hear rumors that the Pennsylvania Game Commission with the Elk Country Alliance and The rocky Mountain Elk Association is working on the purchase this property. QIDC sent two different letters to the Pennsylvania Game Commission and the Elk Country Alliance concerning this property and to see if these rumors are trun. Neither one took any action too answer us.

QIDC will work to have an industry to locate on this site that will provide good paying jobs with good benefits which is needed in this area. We urge all area residents to join with QIDC to work for industry to locate here with the jobs we need, which will be good for the tax base for the township, the school district and the county.

QIDC is working with the United States departments of Commerce and defense with hopes that representatives from these government agencies will soon visit and tour these industrial sites.

Betsy and Dennis McCann and Mary Lee Moore reported the Karthaus Park Association have thirty brick to install at the Veterans Memorial at the park. Other brick are available to purchase in memory of a veteran to be installed. The Park Association needs volunteers to complete this project. All area residents that love and respect the veterans that fought for our freedom are asked to volunteer to complete this project. To volunteer call Betsy or Dennis at 814-263-4367 or 814-762-7434. Please volunteer and get this project completed before winter.

QUEHANNA INDUSTRIAL DEVELOPMENT CORPORATION MEETING, SEPTEMBER 18, 2017.

QIDC would like to congratulate and thank the Karthaus Park Association for the event they had on Sunday September 17 as a community picnic. The food and refreshments was very good and free too all. Your association always do a good service for the area. Thank God we have people like you that work for the betterment for the area.

Shane and Cindy Gaines and Nate Wooster reported the Pottersdale Community Park Association have the outside lighting and power project completed. A Fall Festival is scheduled at the park starting at 2:00 p.m., October 21. The public ar urged to attend and enjoy this beautiful park The park is located near Pottersdale.

QIDC will try once again to request the business owners, non-profit organizations and vendors if the 100 Mile Yard was successful for them. If this event is not helping them, we feel it should not continue. We do not want to know how much money anyone made, all we are asking was it good or bad for you. We would hope to get this information for the October 1 , meeting at which time the decision will be made to continue or not continue the event. We need the business community, non-profit organizations and the public to become members to QIDC and attend the meetings and work for the betterment for the area. If we continue this event we need the cooperation of all concerned to have all vendors to pay the \$10.00 fee to setup. If all would be honest and pay the fee, this would make funds for more portable toilets and more promotions for the event. More portable toilets ar needed for the event.

For membership, information on events write to QIDC, P. O. Box 94, Karthaus, Pa. 16845-0094, or call 814-263-4418, Email; qidckarthaus15@mail.com, Web-Site: www.visitquehannaarea.com.

Next meeting will be October 16 at 6:30 p.m. at the Quehanna Motor Lodge, 818 Quehanna Highway, Karthaus, Pa.
